EDWARD BEAL TAKES POISON IN ALAMEDA.

A GIRL IS RESCUED FROM BURNING ALIVE.

Officer Frank Lynch Saves Mattie Jacobs—Her Strange Behavior.

By the prompt action of Patrolman Frank Lynch and Special Officer Thompson at an early hour this morning Miss Mattie Jacobs, a servant girl at the German House, 864 Washington street, was saved from being cremated alive. As it is, she is horribly burned about the face and body, but will recover.

Shortly after 3.30 A. M. Jacob Treager, who lives in the rear of his jewelry establishment at 862 Washington street, was awakened by flames shooting up in the back yard of his store.

A hurried investigation showed that the flames came from a quantity of clothing that, to all appearances, had been piled against the building.

Treager rushed out upon the street and notified Special Officer Thompson, who was on duty in that vicinity.

In company with Patrolman Lynch, who had also been summoned, Special Thompson made an investigation and learned that the burning clothes had been thrown from a window on the top floor of the German House.

The officers hurried up stairs and, with the assistance of the landlady, who had been awakened, made for the room from where the clothes had been thrown.

The room was occupied by the servant girl, Mattie Jacobs. The door being locked, the girl was called upon to give admittance to the officers.

No answer came from the inside and then Thompson and Lynch forced the door open.

Here a most unusual sight met their gaze. Seated on a chair in the middle of the room was the girl, with her hands folded, calmly watching the flames creep towards her. She appeared to be perfectly conscious of the fate awaiting her, but seemed willing to let the flames consume her.

The officers hurried the girl from the room and, with the assistance of the fire apparatus in the house, managed to extinguish the blaze without calling on the Fire Department.

It seems that the girl had been sick for some time. Last night she was unable to sleep and was reading with the aid of a lamp on a table near the bed. The lamp upset, setting fire to the bedclothes. The girl threw the clothes out of the window, but not before the room had been set on fire.

It was throwing the flaming clothes from the window that the girl was burned. The damage to the room will be about $50. The girl is under the care of a physician.

TRIED SUICIDE IN A BARN.

SAN JOSE, Jan. 21.—A roughly-dressed stranger, who gives the name of Thornton, attempted suicide today in a barn on Center street. He stabbed himself in the abdomen with a pocket knife and was trying to hang himself with a rope when discovered. He was removed to the County Jail and will be examined for insanity. The wound is not serious.

GATEMAN WHO TOOK LITTLE IDA BROWN AWAY FROM HER HOME TRIES TO TAKE HIS OWN LIFE.

His Wife Told Him That She Was Going to Leave Him and He Took Laudanum in Her Presence—He Was Beaten By Her Brothers.

Edward Beal, the Southern Pacific gateman who was mixed up with the disappearance of fifteen-year-old Ida Brown from her home in Piedmont, tried to take his life at his residence, 1607 Park street, Alameda, at noon today.

Beal took the poison in the presence of his wife, who was about to leave him.

She summoned two physicians and Beal was soon out of danger.

He says he will kill himself anyhow.

Last night Beal was thrashed by his wife's brothers and one of his teeth was knocked out.

This morning Mrs. Beal, who had left her husband, returned to her home to get her clothes.

Beal begged her not to leave him.

She refused to have anything to say to him further than to tell him she was done with him forever.

That settled it.

Beal went on the street and met his friend, Mr. Conneau. He politely asked him for the loan of his pistol so he could blow his brains out.

Conneau politely refused to hand over his gun.

Beal then went down to a Park street, Alameda drug store and told the druggist he had a jumping toothache and explained that a little laudanum would be the proper thing to ease the pain.

He got the poison.

Then he returned to his home just as his wife was about to leave.

"You are going to leave me," he asked.

"Forever," she said.

"I do not want to live to disgrace any one," said Beal to his wife. "I am going to die. Farewell."

Then he drank the poison in the presence of his wife in the most dramatic matter and lay down to die.

Mrs. Beal hustled out into the street and told Officer Willing what her husband had done.

Drs. Riley and Taylor were summoned and Beal was soon out of danger.

When he was told that he would not die, this is what he said:

"I'll die, anyhow. I refuse to live."

Mrs. Beal is caring for her husband this afternoon.

BADLY BEATEN.

ALAMEDA, Jan. 21.—The reasons for Beal wanting to kill himself are given in the following story:

As a culmination to the temporary disappearance of fifteen-year-old Ida Brown from her home in Piedmont and in which Edward H. Beal, a Southern Pacific employe, was involved, comes the tale of Mrs. Beal's desertion of her husband and the beating of the latter by the wife's brothers.

According to the story told by Beal, John and Earnest Corder, brothers of Mrs. Beal, accompanied by another relative, went to the Beal home in Alameda last night and threatened Beal with punishment for his acts relative to his actions in the case of Ida Brown.

Beal sought the protection of a policeman and also ordered the officer to put the wrathful brothers out of the house, saying:

"If my wife chooses to go with her brothers, she may do so."

Then, according to Beal, his wife caught up their little child and left the house in company with her brothers. They took the 11 o'clock boat for San Francisco followed by Beal.

When on the boat, Beal claims that he was assaulted by Ernest Corder, who attempted to choke him.

John Corder, he says, knocked him down and before a policeman stationed on the ferry could stop the fight, Beal suffered the loss of one of his teeth.

Upon being separated from the brothers, Beal implored his wife to return to his home, but she refused to listen to him.

Upon arriving in San Francisco Beal declared that he would have the brothers of his wife prosecuted. He claims that on other occasions they have promised to visit him with violence.

JUNKETING TRIPS GO AT SACRAMENTO.

Lively Controversy in Assembly But Junketers Win in Skirmish.

SACRAMENTO, Jan. 21.—The opening of the Senate proceedings were enlivened somewhat this morning by a motion of Senator Bauer that he be added to the committee, appointed yesterday, to inspect the various State institutions. The motion immediately brought Senator Shortridge to his feet in a fierce protest against the whole junketing proposition. He also made a few personal remarks against Bauer. After a lively debate, a compromise was effected by Senator Caldwell's motion that his own name be withdrawn and Bauer's be substituted.

Savage, chairman of the Committee on Municipal Governments and Corporations, made a report of his committee favoring the passage of the Los Angeles charter amendments, and on the motion of Senator Smith the matter was made a special order for tomorrow morning.

The same committee also reported favorably on the amendment to the political code relating to the power of boards of supervisors.

Chairman Lardner of the Roads and Highways Committee recommended the passage of the following bills:

For the construction of the Mono Lake road to connect with the Tioga road; Bill No. 43—An act providing for the location of a highway to Lake Tahoe, and Bill No. 162, providing for bridges and culverts on Mono road.

Selvage, chairman of the Code Commission, introduced a number of bills relating to code revisions.

The Speaker announced that he had received the papers in the election contest of Kelley vs. French.

The Nosler bill, providing for the collection of war funds due the State, had its second reading.

SAYS GUIDES TRIED TO ESCAPE.

Civilian Scouts Make a Strong Defense for Major Glenn.

MANILA, Jan. 21.—In the Major Glenn court-martial trial today Frank Remars and Harry Prescott, the civilian scouts, who commanded the detachment which killed the native guides in Samar, testified.

The witnesses said the guides tried to escape, and that they ordered them to be killed.

Washington Corn, a scout, corroborated Remars' evidence.

All the scouts testified that Major Glenn did not order the execution of the guides.

The prosecution showed that the testimony of Prescott and Corn conflicted with the statements they made when the Inspector General investigated the affair.

The presentation of testimony closed today. The arguments will be heard on Saturday.

WASHINGTON, Jan. 21.—The President this afternoon signed the militia bill.

MURDER AT A STOCKTON HOSPITAL

Brutal Crime Committed in San Joaquin County.

STOCKTON, Jan. 21.—Charles Bailey, a patient at the county hospital, died shortly after one o'clock today from wounds inflicted upon him last Friday by Michael Carasher, also a patient and ward overseer.

Carasher is in jail and will be charged with murder.

The two men quarreled, and Bailey attempted to strike Carasher, who avoided the blow and then knocked Bailey down.

While Bailey was lying prostrate, Carasher secured a piece of gas pipe from under his mattress and beat Bailey severely.

An attempt was made by the hospital management to hush the matter up, but the authorities heard of it and had Carasher, who had escaped from the institution, arrested.

THE MASON DIES OF HIS INJURIES.

Student at the U. C. Will Likely Recover.

BERKELEY, Jan. 21.—As a result of his injuries received yesterday at the Chemistry Building of the University, Carl Dunsweiler, the brick mason, died at an early hour this morning.

Dunsweiler was working on the wall of the annex which is being built to the Chemistry Building.

He leaned on some bricks that had just been put in place. The bricks gave way, precipitating him to the ground thirty-one feet below.

The injured man was taken to the East Bay Sanitarium in Oakland, where it was discovered that his skull had been fractured at the base of the brain. All that medical science could do was done for him, but it soon became evident to the physicians that the case was hopeless. After passing the night in great pain, which towards the end was relieved by the patient relapsing into unconsciousness, Dunsweiler passed away. He was a young man, about 25 years of age, and resided at Twenty-first and Mission streets, San Francisco.

Louis Hickey, the Freshman who was injured by being struck by the falling bricks, passed the night easily at his home on Durant avenue. Although his skull is fractured, Hickey will recover. He will not be able to resume his studies this term.

LONG AND M'FADDEN FIGHT DRAW AT RELIANCE.

Acme Club Will Hold its Contest Tomorrow Evening—Good Racing at Emeryville.

Kid McFadden demonstrated last night that he is once more back in his old time form by going fifteen rounds to a draw with Louie Long before the Reliance Club. And some of those present last night are of the opinion that Long was very lucky to break even.

Long entered the ring in the finest possible condition. He was trained to the minute, and his muscles were lean and hard. On the other hand, McFadden was noticeably fat, having just had three days in which to train. He carried a quantity of fat about his belt, but withal, the red top was the aggressor in nearly all of the rounds.

The first three rounds were in favor of Long, who did most of the leading, but without delivering any powerful blows.

From the fourth to the ninth the contest was all McFadden's, and during these periods there were times that Louie was looking pretty sick. The Kid whipped his right over to Long's jaw repeatedly and also got to the local boy's stomach with both hands.

In the clinches Louie used his advantage in height by bearing down on the red top.

In the tenth round Long went at it with the evident resolve to end the matter in that round. McFadden, however, was content to let him go, and he simply laid up and protected himself as best he could. In about the last half minute of fighting the Kid let loose and the conclusion of the round was all in his favor.

All during the next two rounds McFadden "stalled" and allowed Long to fight himself to a standstill. In the concluding round it was give and take, with the advantage in favor of the Kid.

The decision of Referee George Harding was well received by the crowd, although most of them were in sympathy with Long.

McFadden came out of it without a scratch, although his body was as red as a lobster and he was plainly tired. Long had a badly bruised left eye and for several days he will know that he was in a fight with a top-notcher.

Owing to the fact that McFadden had had but little training, he was on the short end of a two-to-one price, but after the fight had proceeded for a few rounds the Long money went out the window.

McFadden fought a remarkable fight and had he been in condition, he would probably have fought all around Long so that the fight would have been uninteresting.

This is the second time that McFadden and Long have fought, Long getting the decision in the former bout. If they were brought together again, it would be one of the best drawing matches of the season.

In the first preliminary Arthur Farrel, a tar from Alcatraz, slugged eight rounds with Bonar Wilt, and at the conclusion, the sailor was given the decision by Referee Eddie Smith. Farrel was husky and willing to fight all night, but Wilt, although twenty pounds heavier, was unwilling to mix it. Neither knew much about the game, but afforded rousing entertainment for the crowd.

The race track following was given a jolt when Johnnie Dugan was knocked out by Monte Attell in the third round of the second preliminary. Johnnie was exceedingly flighty on his feet, but lacked an effective punch, and in the third round he danced into a couple of stiff punches and was counted out. This bout was judged by Jack Williamson.

The house was crowded, although this was not expected and the Reliance management increased its popularity by substituting Kid McFadden for the Clarence Forbes.

starter was Flush of Gold. Time 1:15.

Fifth race, one mile and a furlong—Katie Walcott, 7, won; Ultrada, 6, second; Kitty Kelly, 12, third. The other starters were Hesper, Castake, Canejo, Mission, Larry Wilt, Tizona, Benana, Forte, Sunello. Time 1:54¼.

Sixth race, seven furlongs—Epicure, 11 to 2, won; Mi Reina, 11 to 5, second; Clausus, 30, third. The other starters were Quatre, Action, Stillicho, Blue Miracle. Time 1:37 3-4.

COWARDLY ASSAULT ON A YOUNG GIRL.

Miss Mabel Bahr of Berkeley has an Exciting Experience While on Her Way Home.

BERKELEY, Jan. 21.—While on her way home last night Miss Mabel Bahr, daughter of Louis Bahr, 2213 Byron street, was attacked by an unknown man near the corner of Eighth street and Bancroft Way.

The assault took place at 8:15 o'clock. Coming up behind her the ruffian grabbed the girl by the neck and started to drag her toward a vacant lot near by. Miss Bahr began to scream when the assailant placed his hand roughly over her mouth. But this did not stop the girl's cries.

Fearing that the girl's screams would attract attention the man dropped his victim and ran.

Hearing the girl's screams, A. C. Inger, who chanced to be in the neighborhood, ran to the rescue, but by the time he arrived Miss Bahr's assailant had disappeared.

Miss Bahr is 17 years old. She describes the man as being short in stature, roughly dressed and unshaved. He wore a cap pulled over his face.

AMUSEMENTS.

"The posters on the billboards call the Orpheum Road Show 'elegant vaudeville,' and the description fits. It is better vaudeville than comes at any other time of the year," said the Post recently. Two crowds that packed the O'Farrell street house to overflowing yesterday gave that verdict. They pronounced the "Orpheum show" to be "the limit."

Why shouldn't it be? It is selected by men who have their pick of the entire field and who choose just the elements that go to make as nearly perfect a vaudeville bill as money and brains can devise.

Nat Wills, a stage tramp, is the Kohinow of the collection. Wills is very funny. Mignonette Kukin sounds Parisian like, but Mignonette is palpably British, though she has a French ballet act with a dance of her own that is pure vivacity and a bevy of gay girls to back her up in picturesque fashion. Serrais Leroy is in the show with an illusionist act that is the best of its kind. Idalene Cotton and Nick Long have a pot pourri of artistic mimicry and impersonations.

Ramson and June, two performers who handle boomerangs in startling style; the Melani trio of musicians, who were here last season; Galetti's trained monkeys make up the remainder of the show. The play will be at the Macdonough tonight.

"THE MAN FROM SWEDEN."

Chas. Newman's "The Man from Sweden," starring Mr. Knute Erickson, which will be presented at the Macdonough Theater on next Friday and Saturday nights, is the latest effusion from this bright author's pen and in this case the author of "Rudolph & Adolph," "Mr. Jolly of Joliet" and "A Son of Rest," has fairly outdone himself. As a Swedish character delineator, Mr. Knute Erickson is practically in a field by himself, and with the usual embellishments with which Messrs. Broadhurst & Currie always surround their stars, it must be conceded that "The Man from Sweden" is bound to be a big success. The play itself abounds with thrilling situations, brilliant dialogue and elaborate scenic effects. It possesses a very strong dramatic interest which culminates in the awe-inspiring blizzard scene at the end of the third act. This scene is one of the most lifelike scenes ever presented on the American stage. The leading role, which was written especially for Mr. Erickson, suits his droll personality better than any characterization that he has ever attempted and as roles of this kind appear to be in high favor now, Mr. Erickson should be greeted by a large audience.

AT THE DEWEY.

"The Wages of Sin" continues to draw well at the Dewey.

PLEASANTON LODGE INSTALLS OFFICERS

PLEASANTON, Jan. 21.—The officers of Verona Parlor, No. 127 will be installed for the ensuing term next Saturday evening. There will be a number of the grand officers present.

NARROW ESCAPE.

Saturday evening, Joe Sanchez, a section hand, was going home on the work train and just as it reached Pleasanton he was thrown from the car, his right leg being broken and he was badly bruised. His physician thinks he will recover.

MRS. HEARST'S GIFT.

The usual gift of one hundred and fifty dollars from Mrs. Hearst was presented to the Supervisors on Monday. The money is to be used for the sprinkling of the roads between Pleasanton, and Mrs. Hearst's home.

A large part of the county road between town and Mrs. Hearst's place has been graveled, and other improvements made, making it a fine drive.

GETTING READY FOR BUSINESS.

NEW YORK, Jan. 21.—John Bottomley, general manager for the Marconi Wireless Telegraph Company of America, has announced that work would soon be begun for installation of wireless stations capable of covering pretty much all the world.

"In view of the opposition," said Bottomley, "it is impossible for me to tell all our plans at the present time, but a number of stations will be set up here very soon. There is no reason that I know of why communication cannot be established between here and San Francisco soon. It has been proved to our satisfaction that wireless messages can be sent over the land as well as over the sea.

"We are at present making arrangements for putting a number of stations at points along the Pacific. It is safe to say that New York will be adequately equipped, too."

VANDERBILT BUYS LOT.

NEW YORK, Jan. 21.—William K. Vanderbilt Jr. has concluded negotiations for the purchase of plot 50 by 100 at the northeast corner of Fifth avenue and Fifty-second street, on which he will erect a handsome residence as soon as he can get possession.

CARRIC AND TURNER GO TOMORROW NIGHT

LIGHT-WEIGHTS ARE IN THE BEST OF CONDITION TO FIGHT FIFTEEN ROUNDS.

Tomorrow night there will be an exceedingly hot battle when Rufe Turner of Stockton comes in contact with Jack Carrig of Chicago in the arena of the Acme Club.

With the exception of Joe Gans, Turner is the best colored light-weight in the business. Carrig has beaten some of the best ones of his weight and added to this he has fought plenty of colored men, and has never lost to one of them.

The Stockton talent will heavily back the colored fighter, while Eastern money is beginning to pour to be placed on Carrig. Turner, however, will enter the ring a probable favorite, because his ability is known, while that of Carrig's comes only from hearsay.

Manager Lavigne reports a heavy sale of seats, and has received telegrams from neighboring towns ordering blocks of seats.

In the preliminaries to the main event, George Brown will fight Frank Raphael four rounds at 140 pounds, and Jockey Worthington will contest with Tommy Snallham for eight rounds at 122 pounds.

BERKELEY AND THE STATE UNIVERSITY

THE SIAMESE STUDENT IS AGAIN IN TROUBLE.

Thang Kahn has Disappeared and the Police Think That Foul Work Has Been Done.

BERKELEY, Jan. 21.—After wandering over half the globe in search of an education, Thang Kahn, son of a Siamese nobleman, finally arrived in Berkeley shabby and hungry and was taken care of by Professor Bradley. He thought then that his troubles were over. But now it seems that he is in fresh toils. He has disappeared, and no one knows where he is.

Thang Kahn has not been seen since Monday night. He left the home of Professor Bradley at about 8 o'clock in the evening. He had on a dark overcoat, wore patent leathers and was well dressed. It is feared that foul play has been done. It was in the neighborhood of Professor Bradley's house that Horiye, the Japanese student who works for Professor Stringham, was assaulted. The police are inclined to think that there may be some connection between the two cases.

Kahn's story is a romantic one. He was desirous of obtaining an education, and asked his father, a Siamese nobleman, to send him to England to college. His father refused, and Kahn ran away from home. He shipped to England as a common sailor. Landing in London without a cent in his pocket, he had to work at any thing he could do until he got a job as a sailor on a ship bound for San Francisco.

At Port Costa, he had a row with the captain, who took advantage of the boy's ignorance of the English language. He discharged Kahn without paying him any wages.

One of the sailors to whom Kahn had confided his desire for an education gave him a slip of paper upon which was written, "University of California," with this as his only guide Kahn made his way to Berkeley on foot.

For two days he wandered about town unable to make himself understood. At last by chance he met Professor Bradley who, at one time, was a missionary to Siam. The professor listened to the boy's story and eventually took him into his house.

At the time the Siamese Prince was in San Francisco Kahn went to him and told him the story of his travels and troubles. The Prince was much impressed and at once made provision for his subject's maintenance while gaining an education. Kahn immediately began to prepare himself for the University and has lived quietly with Professor Bradley ever since.

There is no reason known why any one should have any evil designs on the young Siamese. He was a total stranger here and had few acquaintances. He is about twenty years old and wears a mustache.

Both the local and San Francisco police have been notified of the boy's disappearance.

Further investigation shows that the young Siamese student was noticed about 11:30 o'clock Monday night standing on the corner of Eighth and Broadway, Oakland. He engaged in conversation with a man, who was waiting for a car, and during the conversation the missing student related the fact that he was staying with Professor Bradley of Berkeley, and also recited other facts related above.

He then inquired about a suitable lodging house, explaining that he had lost the key to the Bradley house and would be unable to get in at that hour of the night. Upon being asked the question, he stated that he had fifteen dollars.

He was then directed to the Galindo Hotel, just half a block away. He went there, but in a moment returned, saying that the house was full.

Then he was directed to the Cosmopolitan at 862 Broadway. Here inquiry shows he spent the night, and before retiring left word with the landlord to be called so as to catch the first train to San Francisco in the morning. He was called at 5:30 a. m., and ostensibly departed on the train.

Before leaving, however, he left word that he would be back that night (Tuesday) to occupy the room again, but he failed to do so, and it is supposed that he is somewhere in San Francisco.

BERKELEY BOARD IN SESSION.

ROUTINE MATTERS HANDLED AT THE MEETING OF SCHOOL DIRECTORS.

BERKELEY, Jan. 21.—At the meeting of the Board of Education last night little of importance was done outside of the regular routine business.

The report of the Finance Committee was approved and warrants ordered drawn for the following amounts: A. Robinson, $11.55; William Brown, $6.00; Ramos & Ramos, $11.00; Berkeley Daily Gazette, $18.60; D. H. Bruns & Co., $1.95; Dan Sloan, $3.00; H. M. Waterbury, $4.00; Berkeley Daily Gazette, $29.50; John McCarthy, $10.00; J. E. Boyd, $2.25; Ellis Publishing Co., $12.00; R. N. Baker, $12.00; Contra Costa Water Company, $24.70; Contra Costa Water Company, $7.60; Lund & March, $25.35; W. P. Woolsey, $15.00; H. E. Longeneker, $4.90; C. T. Weber & Co., $197.65.

High School Fund—Schmitt & Zehner, $27.65; C F Weber & Co., $13.25; E. H. Driggs, $9.00; R. S. Chapman, $139.00.

The salaries of the janitors in the Hillside, Commercial, Lorin and Bancroft Schools were each raised $5 a month.

Professor C. L. Biedenbach, principal of the McKinley School, appeared before the Board and asked that a gas stove be put in the kitchen of the school. For the last two years the teachers have been warming their lunches on an oil stove, which has proved a constant annoyance and expense. Mr. Biedenbach said that he had investigated the matter and found that the entire cost of putting in the gas pipes and of the stove itself would be about $50. The request was granted.

Superintendent of Schools Waterman reported that on account of the overcrowded condition of the grammar schools and a new seventh grade had been established, with Miss Skinner as teacher. The action of the superintendent was approved.

TO AID THE FISHERMEN.

PARIS, Jan. 21.—The Chamber of Deputies has voted a credit of $100,000 to aid the sufferers from the failure of the sardine fisheries of Brittany.

A general discussion of the Budget was brought to a conclusion by a speech from M. Ribot (Republican), who criticised the fact that the Chamber had not before it the expenditures relative to war and marine. For this the speaker did not blame the members of the committee, who could not help themselves, as the Ministers of War and Marine were not ready with their estimates. M. Ribot declared himself opposed to any attempt to balance the Budget by means of a loan.

The estimates of expenditure for the Department of Justice were then taken up and passed after a brief debate. The Chamber then adjourned.

POLITICIANS PREPARE FOR THE CAMPAIGN.

Non-Partisans and Republicans To Have Ticket in the Field at Coming Election.

BERKELEY, Jan. 21.—The political campaign in Berkeley was begun last night, when the two rival parties each held a meeting to discuss plans for the coming contest.

At the office of Griffith and Koosher, the Non-Partisan party held its first meeting of the campaign. Owing to the absence in the East of the chairman, Victor Robertson, Harry Squires was elected to the vacant office. William J. Mortimer was elected secretary.

On a motion of Richard Lloyd, it was decided to place a ticket in the field for the coming election in April. Fifteen delegates for every one hundred votes cast for the man receiving the highest vote at the last election will be placed for election at the primaries. The delegates from the different wards will be in proportion to the number of voters in the ward.

The Republican Club met at the office of Francis Ferrier. The amendment to their constitution was finally passed, whereby the club is hereafter to take part in town elections as well as in State and county elections.

Tonight the executive committee will meet and select delegates for the primaries. Fifteen delegates from each ward, or 105 delegates in all, will be chosen.

The primaries are to be held on March 3.

TRAINING SEASON FOR TRACK MEN TO OPEN.

BERKELEY, Jan. 21.—The track season at the University of California will be opened on Friday morning at 11 o'clock, when the track team will hold its first meeting for the term in the Harmon gymnasium. At that time the candidates for positions on the team will sign the lists opposite the events for which they intend to train. Active training under Walter Christie will begin on the following Monday.

Although the prospects of the team are not as bright this year as usual, yet the gloom has been greatly dispelled by the news that Herbert Cheek will probably return to college. As the presence of Cheek on the team means a difference of at least twenty points in the score when Berkeley meets Stanford, the news of his return will be hailed with delight by the athletic enthusiasts.

HAYWARDS, SAN LEANDRO, ELMHURST, FRUITVALE

TRAINING TRACK IN HAYWARDS.

HORSEMEN WILL MEET SATURDAY TO DISCUSS STOCK COMPANY PLAN.

HAYWARDS, Jan 21.—The proposition of forming a stock company for the purpose of establishing a training track at Haywards will be definitely decided upon at a meeting of horsemen from different parts of the State, which will be held at the Villa hotel in Haywards, Saturday evening, January 24th.

The plan has been agitated in Haywards for some time, and has finally reached the point where many outsiders are becoming interested. The agitators of the training track proposition are confident of success and will present the matter before the meeting in full.

At the recent meeting of the Horse Show Committee, part of the evening was devoted to the discussion of the training track scheme. The members of the committee, all of whom are well known horse owners of this district, are interested in the movement, and will do all in their power to forward it. They will be in attendance at Saturday night's meeting, with the view of assisting to launch the plan and form a stock company. Should the company be organized, and there is every indication that it will be, the work of laying out the track will no doubt be started in the near future. Those interested in the matter declare that the track will be completed and in active use by the time the next horse show is given in Haywards, which will be a year from next March. They say that Haywards will derive many benefits from the track, where many of the finest horses in the country will be stabled nearly all the year round.

Among those actively interested in the establishment of a training track in Haywards are the following: H. W. Meek, George Gray, A. W. Schafer, M. Henry, W. Cunningham, George Grindell, John E. Geary, Sam Gamble, Henry Marlin, John Branin, Charles Branin, Louis Crellin, William Kent, David S. Smalley, D. G. Frantz, G. S. Langan, Carl Iverson, J. Stanton and others. Many of the above, who have stables in the vicinity of Haywards, own some of the finest horses in the State.

WORKMEN CELEBRATE.

Last evening Haywards Lodge No. 18, A. O. U. W. celebrated its 25th anniversary in an elaborate manner. The affair took place in the opera house, which was well filled with members and visiting Workmen. Preparations for the event had been in progress for some months, and everything was conducted without a hitch. The program which included many interesting numbers, was a great success.

The committee of arrangements to which a great deal of credit is due for the successful manner in which the celebration was carried out, consisted of E. K. Strowbridge, W. J. Ramage and Joseph Gomez.

During its twenty-five years of existence, Haywards Lodge of Workmen has been one of the most popular and successful fraternal organizations in Haywards. It is now in a prosperous condition, with a large number of members and more coming in at each meeting.

LOOKS LIKE A BREAK.

NEW YORK, Jan. 21.—Signs of a rush to cover on the part of independent operators and their agents are becoming apparent in the local coal market, and though these operators are doing all in their power to maintain the present level of prices, it is whispered there are several deserters from the ranks, who are seeking safety by selling at lower figures. Operators do not hesitate to admit that the price of coal now depends principally on the thermometer and only a cold snap can prevent a gradual decline. With a mild spell the independents will be faced by the danger of being left with large supplies of which no one will buy and their only escape from the predicament will be a substantial cut in figures and that this reduction will come within a week is confidently predicted.

It is reported that John Markle has been selling his coal at a figure far below the $10 rate on which the independent operators have agreed.

EARLY TRAIN IS RESUMED.

SAN LEANDRO PEOPLE PLEASED WITH CHANGE IN THE SCHEDULE.

SAN LEANDRO, Jan. 21.—Several weeks ago the San Leandro and Haywards Boards of Trade forwarded to the Southern Pacific Company an urgent request, in the shape of resolutions and a petition, asking that the early morning train service, that had been discontinued, be resumed. The request of the Boards of Trade was granted and last Thursday the 9:44 train to San Francisco was taken off and the 6:53 put on. As a result of the change, which makes it possible for commuters from this end of the county to make connections with the 7:30 boat from Oakland, there has already been made a number of complaints because the 9:44 train was discontinued.

The benefit of the change, however, is felt by the residents of this section who have business interests in San Francisco, and who must arrive in the city at an early hour. By the former schedule, it was impossible for these people to ride over the Southern Pacific line and reach their places of business before 10 o'clock in the morning. The present schedule is the same as was in use before the 9:44 train was put on, and although it may inconvenience some people, the most important commuters are highly pleased that it has been resumed.

A SURPRISE PARTY.

Monday evening a surprise party was tendered Mrs. John Terra at her home on Dutton avenue. The affair was given in honor of Mrs. Terra's 24th birthday, and was largely attended by a large number of friends and relatives. The evening was spent at games and dancing. At 12 o'clock the visitors sat down to supper.

Those present were: Mr. and Mrs. John Terra, Mr. and Mrs. Frank Dutra, Mr. and Mrs. Frank Trombos, Mr. and Mrs. Edward Rogers, Mr. and Mrs Cardoza, Mr. and Mrs. John Perry, Mr. and Mrs. Antone Vargas, Mrs. Louis Martin, Mr. and Mrs. Joseph Vargas; Misses Emma Rogers, Maud Cardoza, Rita Cardoza, Clara Marshall, Mamie Marshall, Lucie Cabrall, Edna Vargas, Fannie King, Elsie Cardoza, Leonora Cardoza; Messrs. PANAMA, Jan. 21.—Yesterday being the first anniversary of the death of General Carlos Alban, the Governor of Panama, who was killed on board the steamer Lautaro during the naval battle between the government forces and those of the insurgents in the harbor of Panama, memorial services were held in all the cities of Colombia.

BARBER TROUBLES IN ELMHURST.

J. E. JOHNSTON IS ACCUSED OF DOING BUSINESS AFTER HOURS.

ELMHURST, Jan. 21.—Monday afternoon an investigation was held in the barber shop of J. E. Johnston of Elmhurst, by representatives of the Barbers' Union, to ascertain the foundation for the complaints that have been made against Johnston. The barber has been accused of shaving customer's after closing hours, for which, if he is found guilty, he will be fined $5, it being the first offense.

This is not the first difficulty in Elmhurst between the union and the boss barbers, and it is hinted that the recent trouble hinges on the former affair. Some time ago the secretary of the barbers' union visited Elmhurst, and while here he went to the barber shop of M. D. Silva. He asked the barber, employed by Silva, if he was a union man. The barber stated that he was not, whereupon the secretary of the union tore down Silva's union card, that had been hanging on the wall for months.

Later the difficulty was investigated by the union. Silva's man joined the union and a new card was furnished the establishment.

Now, Silva has accused Johnston of shaving a street car man after closing hours. At the investigation Monday afternoon a very lively discussion of the case took place, and resulted in disclosing nothing. Silva is confident that Johnston was doing business after closing hours, while the car man, whom Johnston is accused of shaving at this particular time, claims that he borrowed a razor from Johnston and shaved himself in the latter's shop.

As it was only the committees duty to investigate the matter, no action was taken by it, further than to state that the result of its investigation would be reported to the union for further investigation. In all probability the union will take up the complaint against Barber Johnston at its next meeting.

ARRESTED FOR ARSON.

GOSHEN, N. Y., Jan. 21.—John King has been arrested here charged with arson and murder. A building located near Montgomery, Orange County, and owned by a New Yory City firm, was burned August 6 last. Amilla Lumbardi occupied the upper portion of the building, with his wife and five children. Mrs. Lumbardi and two children were burned to death. Mr. King's arrest is due to information, which recently came into the possession of the Coroner.

BOLD BURGLAR IN FRUITVALE.

RANSACKS FRONT ROOMS WHILE WOMAN WORKS IN THE KITCHEN

FRUITVALE, Jan. 21.—Monday afternoon while Mrs. Alexander Granger was engaged in household work in the kitchen of her home on Bray avenue, near the county road, a daring burglar pried open the front window, and, after ransacking the bed rooms, made away with $10 in gold, two diamond ear rings, several gold pins and a number of other valuables.

The robbery was the most daring ever committed in Fruitvale. Hearing Mrs. Granger at her work in the kitchen, the burglar went about the front part of the house, apparently with great care. Not a corner was left unsearched. Trunks were opened and bureau drawers divested of their contents in the search for valuables. In one of these drawers the burglar found a small jewel case which contained the diamond ear rings and other articles of jewelry. The case and its contents was removed. Two five dollar gold pieces and the purse they were in were also taken.

When Mrs. Granger went to the front part of the house she discovered what had taken place during the short time she was in the kitchen. She immediately informed Constable Carroll. An investigation showed that the burglar had gained an entrance to the house through a front window, by prying it open with a knife. No trace of the man could be found. Constable Carroll immediately began a diligent search for the burglar, and he now reports that a clew has been found that may lead to the capture of the man. A careful watch is being kept for all suspicious looking characters, while the police of Oakland and surrounding towns have been informed of the robbery.

OAKLAND TRIBUNE
Tribune Publishing Company William E. Dargie, President

A MATTER FOR REFLECTION.

Before the Legislature passes the bill to abolish the Bank Commission, the members would do well to reflect upon the matter carefully. It is not a matter of individuals, but of public policy. THE TRIBUNE does not propose to make a defense for any member of the present commission nor discuss the question of individual fitness. Neither is it concerned about the personal fortunes of the commissioners. This matter is not a question of personal likes or dislikes or of political preferences.

Thus far the only argument advanced in support of the bill is that one of the recent appointees is unfit and was active in his efforts to defeat Governor Pardee. Admitting for the sake of argument that both charges are true, do they constitute a justification for abolishing the commission? So far, no complaint is heard against the character or qualifications of the other two members. One of them has been in office more than a year, and seems to have given satisfaction.

Is it exactly just to legislate two worthy men out of office to get rid of one who is unworthy? But should there not be some better warrant for legislating a necessary public body out of existence than the wish to get rid of a single undesirable member?

If the Bank Commission were abolished today another one or a similar body would have to be constituted to fulfill its functions. Public policy demands that some constituted State authority shall supervise all banking operations outside those of the national banks; and the Legislature would be grossly derelict were it to abolish the present Bank Commission and create nothing to take its place and perform its duties.

This sharply defines the issue drawn by the bill. It is simply a question of abolishing one commission to create another with precisely the same powers and duties. And the only excuse for such contradictory action is that one of the three commissioners is unworthy and unfit. Is the excuse sufficient? Do not such instances occur at intervals in all offices? If an unfit man be elected Sheriff, is the Legislature warranted in legislating him out of office that another man may be given the place? The charge of unfitness is rather vague anyway. Accusations, to determine the right of a citizen to hold public office, should be more specific. Political treachery, however contemptible and repugnant to high minds, does not imply unfitness, nor is it a warrant for legislative action. Officials may be impeached or removed from office by other summary process for malfeasance or flagrant misconduct in office, and this recourse seems to guard against the abuse of his functions by any member of the Bank Commission.

At any rate the Legislature should look before leaping in this matter. It is not a case requiring haste, neither is it a matter in which temper or political animosity can be taken as a safe guide. Radical measures are justifiable in extreme cases, but is this a case of extreme emergency?

There is a curious return movement in settlement becoming apparent in the movement of population. Recently we had occasion to note the fact that a number of men from South Dacotah had bought farms in the tide water section of Virginia. The Baltimore Sun a few days ago printed an item about some Nebraskans buying farms in the coast counties of Maryland. There is a place in Louisiana known as the Iowa Colony, and another in Alabama settled almost exclusively by people from Wisconsin. Not a few people have moved from Kansas back into the older States in recent years. It is noteworthy that nearly all the immigration into the Southern States comes from the North. Very few foreigners settle in that section. The bulk of the foreign immigration that goes to the South settles in Maryland, Louisiana and Texas.

The Cuban treaty threatens to involve the United States in a tariff war with all Europe—England alone excepted. It is admitted also that it will not make sugar any cheaper in this country. The twenty per cent duty remitted will go into the pockets of the sugar trust or the Cuban planters. Nobody else will profit by the arrangement but some Eastern manufacturers, while a dozen agricultural States West and South will be dealt a severe blow.

Beveridge of Indiana must have queer notions about parliamentary procedure. He complains because a majority in the Senate is in favor of the omnibus Statehood bill, and desires to bring it to a vote. A man who is playing the part of an obstructionist cuts a sorry figure when he objects to the constitutional right of the majority to rule.

Ten Senators were elected yesterday—all Republicans except Stone of Missouri. Poor old Missouri!

HEALTH AND HUMBUG.

The modern mania for discovering something injurious in everything we eat or drink is aptly hit off in this sarcastic paragraph from the Memphis Commercial-Appeal:

"Drink water and you get typhoid. Drink milk and get tuberculosis. Drink whiskey and get jim-jams. Eat white flour and get appendicitis. Eat soup and get Bright's disease. Eat beef and encourage apoplexy. Eat oysters and acquire toxemia. Eat meats of any kind and get indigestion or some kind of germ disease. Eat vegetables and weaken the system. Eat desserts and take on paresis. Smoke cigarettes and die early. Smoke cigars and secure a nice catarrh. Drink coffee and tea and obtain nervous prostration. Drink beer and have the dyspepsia. Drink wine and get the gout. In order to be entirely healthy one must eat nothing, drink nothing, smoke nothing, and even before breating one should see that the air is properly sterilized."

Whenever the question of obtaining a municipal water supply is discussed, two opposing factions rise and clash with great fervor. One side objects to surface water on the ground that it carries decaying vegetable and feculent matter injurious to health. The other side condemns underground water because it is loaded down with salts and metallic tinctures that produce all sorts of organic troubles. To hear them argue one would think it only a question of dying by vegetable or mineral poison.

Really, a great deal of the popular discussion of the diet question is only a mixture of prejudice and half-baked information. Not a few people make themselves sick dieting, and others get a distaste for all kinds of food by imagining it to be filled with impurities and dangerous germs. When a fellow gets microbes in his brain, he begins to find something wrong with everything he eats or drinks.

A more persistently unhappy and depressing personage than the man who is always dieting can hardly be imagined. He is generally as unhealthy as a yellow cucumber and as joyous as a stewed prune. He is always pulling his insides out for your inspection, and telling you about the horrible things that lurk in your favorite dishes. He holds up his hands in horror at the mention of sweetbreads and chicken livers, calls a crab a poisonous reptile, and esteems a hog as filled with devils and dangerous worms.

Now compare one of these fellows who think more of their stomachs than they do of salvation with a chap who dotes on ham, shellfish, sweetbreads, mushrooms and the like. One is as lean and lank of jaw, as lustreless of eye, as sallow of complexion and as sorrowful of countenance as Praise God Barebones, while the other is chirk, rosy, round girthed and merry as a robin in the spring. Hang the diet fiends! They are the foes of good eating and good fellowship. They breed dyspepsia and suspicion, causing your gourmet to quarrel alike with his food and his friends.

GOOD FOR STOCKTON.

Stockton has been regarded as a rather slow town, but it has recently set an example that every community in the State should follow. An Arbor day, dedicated to tree planting, has been talked of from time to time, but the talk never came to anything till Stockton pushed in from the back seats and took the lead in a practical movement to inaugurate an Arbor day. It was a highly successful movement, and one that deserves the highest praise. Stirred to action by the local newspapers, the citizens of Stockton got together and devoted a day to planting ornamental trees along the highways leading into the city. Over a thousand trees were set out and an organization perfected to continue the tree planting from year to year. The whole State is saying, "Good for Stockton!—for here is something done that we have all been hoping for and talking about for twenty years. Arbor day associations should be formed all over California, and the movement kept alive till all the highways are lined with shade trees.

President Roosevelt has answered the Bourbon challenge that he dare not appoint negroes to office in the North by making William H. Lewis, a colored lawyer of Boston, assistant United States District Attorney for Massachusetts. Now the Democrats are declaring that the District Attorney didn't need another assistant. It's pretty hard to shut off objections from people who are determined to make them.

Governor Murphy of New Jersey is something of a jester. He says there are few, if any, real trusts. It is to be presumed that his excellency can tell a hawk from a hand-saw, but in the matter of trusts his judgment must be taken with a mountain of salt. New Jersey is where they make them.

It was rather mean of New York to raise the assessment on Carnegie's house $1,300,000 after he had given the city $5,000,000 for libraries. But a good many plain people will be inclined to think Carnegie would do better to pay his just proportion of taxes before giving away money for libraries or anything else.

The foot and mouth disease has reached Sacramento. The first symptom is when a member opens his mouth and puts his foot in it. Charley Shortridge of Santa Clara seems to have developed the first violent attack, but as the complaint is always chronic with him he will only be studied as a terrible example.

The Union Labor Assemblymen elected from San Francisco have been assigned a clerk, a sergeant-at-arms and a stenographer at so much per, but they have not appointed a "business agent" as yet.

TOM REED'S FAVORITE POEM.

The late Thomas B. Reed's favorite poem is said to have been the following, by Eugene Ware, now Commissioner of Pensions:

Once a Kansas zephyr strayed
Where a cross-eyed bull pup played;
And that foolish canine bayed
At that zephyr in a gay,
Semi-idiotic way.
Then that zephyr in about
Half a jiffy took that pup,
Tipped him over wrong side up;
Then it turned him wrong side out
And it calmly journeyed hence
With a barn and string of fence.
—Detroit News.

Wilosn, who was killed in a railroad accident on the West Oakland mole, where he was employed as a signal man, has petitioned to have their homestead set apart for her use. The homestead consist of a house and lot on Eighth street in West Oakland, valued at about $2500.

Mr. Russ is the son of Mr. and Mrs. Frederick Russ of Claremont and is connected with a lumber firm at Port Costa, where, after a honeymoon to be spent in Southern California, the young people will reside, a home having been furnished for their occupancy. Mr. Russ has been prominent in college and social circles.

AN ENGAGEMENT.

The engagement of Allan L. Chickering and Miss Alma Sherman has been announced. The announcement was made very quietly by the family of Miss Sherman in Fresno, and the family of Mr. Chickering in this city, owing to the recent death of a relative of the bride-to-be. Owing to this bereavement Miss Sherman, who is at present a senior at the University of California, will not graduate.

The young people have many friends in the younger social set upon both sides of the bay, and particularly in university circles, Mr. Chickering being a graduate of the institution at Berkeley.

Allan L. Chickering is the eldest son of W. H. Chickering, the well-known attorney, and he is at present associated with his father in the firm of Chickering & Gregory of San Francisco. He graduated from the University of California in the class of '98, spent several years in New York perfecting himself in the law, and is now a member of the firm. Mr. Chickering has displayed considerable literary ability, and while in college was instrumental in establishing the Daily Californian, the student daily, and was its first editor.

Miss Alma Sherman is the daughter of Dr. Sherman of Fresno, though at present a resident of Berkeley while pursuing her studies. Miss Sherman has taken a great interest in student affairs, and has displayed marked ability as a writer of successful college plays, farces and literary productions for important events. The date of the wedding has not been set.

They are very instructive and helpful to those who are in the habit of attending the concerts. A small admission fee is charged.

San Francisco, Jan. 19, 1903.

George C. Perkins, United States Senate, Washington, D. C.: The Chamber of Commerce of San Francisco, on behalf of the general interests of California, which, however diversified, are vitally dependent upon agriculture, respectfully and earnestly requests the Senators from California to oppose the ratification by the Senate of the proposed Cuban reciprocity treaty as inimical to the great agricultural and horticultural interests of this State, including that of raising American sugar on American soil, in which industry she is the second State in the Union. Have wired to Senator Bard.

WILL TAKE CASE TO THE SUPREME COURT.

Mrs. Corine Mathea Hansen, against whom Judge Ogden recently rendered a judgment in her suit against the Union Savings Bank, has given notice that she will appeal the case to the Supreme Court. The bank foreclosed a mortgage on Mrs. Hansen's property in the Watts' tract for $3,000. The mortgage was executed before the death of her husband. When he died Mrs. Hansen sought to have the property set aside to her as a probate mortgage, but the bank protested on the ground that it already had possession of the property under the foreclosure proceedings. Judge Ogden gave judgment against her and now she will appeal.

AN OBJECT LESSON

In a Restaurant.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald and all perhaps gray, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observations or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled health foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty because they supply just what every weak stomach lacks, pepsin, hydrochloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and, in fact, are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have pinned their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

WATER LOGGED BONDS DROP AWAY BELOW PAR.

WATER IN UNITED RAILROADS SECURITIES BEING SQUEEZED OUT—PRICE FALLS TEN PER CENT IN A FEW DAYS.

SAN FRANCISCO, Jan. 21.—The water is running out of the capitalization of the United Railroads. The bonds of the corporation have suddenly slumped ten points. What the stock would sell for is merely a conjecture, as it is not quoted on the local market. But it may be imagined that it wouldn't bring much in view of the fact that the bonds are rapidly sagging, and the holders are anxious to unload on a falling market.

The drop of ten per cent in the price of the new bonds two weeks in advance of their issuance is an evidence that the wise men of the street are standing from under. Brown Brothers & Co. of New York have refused to take up their option on the bonds, and local subscribers, who will be called upon to take up their pro rata of the new issue, are frantically trying to unload. And this before the bonds are even listed on the stock exchange.

It is reported that Brown Brothers & Co. refused to take up their option because investigation into the affairs of the corporation disclosed an unsatisfactory financial condition. It is said that the provision for the sinking fund is not adequate to meet redemption necessities. Some $4,000,000 outstanding bonds of the old Market street system will fall due in 1904 and must be met. Other liabilities falling due at different times will absorb the possible earnings and accumulations before enough can be placed in the sinking fund, and the road would either have to borrow money to meet those obligations or else liquidate such debts by the exchange of old for new bonds.

Rumor has it that the New York bankers discovered that the United Railroads are greatly over-capitalized, and embrace a considerable mileage that little more than pays operating expenses. While the expense account, including interest charges and cost of operation, has greatly increased, there is no corresponding increase in the earnings. The gross increase in receipts is more than offset by the added interest on an excessive bonded indebtedness. That is, the United Railroads are waterlogged. Hence the securities have become a drug in the market.

The bonds have sold as low as 83 flat, while the California Street Railroad bonds are selling at 120 and those of the Los Angeles system at 119. Oakland Transit bonds bring 106, while those of the United Railroads are 17 points below par.

Expensive management and too much politics also have a share in depressing the price of the bonds. Despite the repeated asseverations of the officers of the new corporation that it was out of politics, they have been meddling in all sorts of unaccountable ways. They took an active part in defeating the Geary street bond proposition, and they took a hand in the election of State officers and members of the Legislature. They interfered in the contest for the Speakership of the Assembly. So far from the United Railroads being out of politics, they appear to be deeper in than the old Market street company was. Of course this invites political reprisal and tax troubles that will not make the financial path any less rocky for the corporation.

TWO SENATES FOR COLORADO.

GOVERNOR PEABODY IS NOT YET READY TO TAKE ACTION IN THE MATTER.

DENVER, Colo., Jan. 21.—Republican candidates for the House, who were defeated in the election, began to arrive in the city this morning and some of them stated that they had come in response to telegrams from Speaker Sanford. The supposition is that they have been called to be in readiness to take seats should the House determine on a general unseating of the Democratic members. Unless conferences arranged by the Governor to bring about a settlement between the Republicans and Democrats in the Senate agree, the joint Legislative convention to elect a United States Senator will have two bodies claiming recognition, and how it will end no one can tell.

Three Republican Senators—Drake, Cornforth and Wood—have deserted the body over which Lieutenant-Governor Haggott presides, leaving only six regularly elected Republican Senators in that organization. Cornforth and Wood, it is said, have signed a pledge not to vote for Wolcott for Senator. Governor Peabody has not yet recognized the Haggott Senate. When asked to do so, he replied:

"There is nothing before me at this time to consider. When the proper time comes, I will consult constitutional attorneys and then determine which Senate body I shall recognize under the law."

The Democratic Senators held possession of the Senate chamber all night, sleeping on cots. They have held practically a continuous session since 10 o'clock Monday morning.

Ladders and ropes were found this morning in the ante rooms of the House gallery. Who placed them there is not known, but it is presumed the purpose was to afford means for the Democratic Senators to enter the House chamber if an attempt should be made to exclude them from the joint session to be held there at noon today. The ropes and ladders were removed by officers of the House.

The Democratic Senators adjourned Tuesday's session at 10 o'clock and today's session was immediately convened. The emergency appropriation bill, carrying $50,000 for salaries, was passed unanimously on third reading and sent to the House for the purpose of ascertaining whether the latter will recognize the Democratic Senate. The Republican Senators attended the session.

The House secretary refused to receive the appropriation bill, thus refusing recognition to the Democratic Senate.

The House transacted no business, but on motion of Dolp of Colorado Springs, adjourned until 2 o'clock on Friday.

The Democratic Senators adopted resolutions providing for a joint session and sent them to the House, but the messenger was not permitted to enter the House chamber. Democratic members of the House began filing into the Senate chamber at noon, and the joint session will be held there.

MINERS MEET IN INDIANAPOLIS

INDIANAPOLIS, Ind., Jan. 21.—When President Mitchell called the United Mine Workers' convention to order today, he announced special committees on injunctions and on appropriations.

The resolutions committee began the reading of the resolutions submitted by the different locals. Most of these resolutions first demanded increases ranging from 18 to 25 per cent for the run of mine basis, for weighing coal on the miners' car, for smaller differentials and for advance in the wages of inside and outside common labor.

A resolution from an Illinois local to buy a $10,000 residence in Indianapolis as a permanent residence for the president of the association was not concurred in by the committee.

A resolution from one of the Pennsylvania anthracite districts, asking that all districts petition the legislature of their respective States to cause one per cent of all coal sales to be set aside as a permanent beneficial fund for the miners who are crippled, injured or permanently incapacitated in mine casualties, was not concurred in.

A. C. HENRY WILL GIVE A LECTURE

At Grand Army Hall on Thirteenth street next Saturday night, January 24, Hon. A. C. Henry will deliver what should be a most entertaining lecture. His subject will be, "What Oakland Was Forty Years Ago, What It Is Today, and What She Has Got to Do to Become a Great Commercial City."

Mr. Henry is a pioneer citizen, who has seen Oakland grow from a very small beginning to its present magnificent proportions. From early days he has taken an active interest in the city's welfare, and has had no small share in its business and political life. He served the municipality as Mayor and Treasurer, and for many years was the head of one of our leading banking institutions.

Thus Mr. Henry is qualified to speak of the early history of Oakland, and to describe the lines along which it has grown and developed. He has helped to make the town's history and to shape its destiny. What he has to say should be interesting, whether taken reminiscently or looked upon as a lesson in experience to be studied with an eye to the future. The lecture will begin at 7:30 o'clock.

BASEBALL MEN ARE CALLED TO ORDER

CINCINNATI, Jan. 21.—The National baseball meeting was called to order at noon by President Pulliam. At that hour the representatives of the New York and Brooklyn clubs were still working on the minority report, the contents of which were carefully guarded.

President Herrman of the Cincinnati Club had copies of the majority report ready and submitted them to Soden and Conant of Boston and other members in advance of the meeting. The report gave a history of the peace negotiations from the annual meeting in New York last month to the close of the work of the Committee of the Whole last night and recommended the adoption of the original joint peace agreement of January 10th, as amended yesterday so that the fifth section should provide for an American League charter in the borough of Manhattan instead of having the section cover the whole of Greater New York.

ELECTION CONTEST HAS BEEN RESUMED.

The suit of E. A. Richmond contesting the election of T. J. Powers as Justice of the Peace of Washington township was resumed this morning before Judge Ogden, and it is expected that the case will be decided before evening.

Richmond this morning made a net gain of twenty-eight votes in three of the seven precincts to be counted, and as he requires only seventy-six votes to win out, his friends are confiden that he will succeed. However, he must secure a better percentage in the four remaining precincts.

In the three precincts counted forty-eight votes were thrown out. Of these thirty-eight were for Powers and four were for Richmond.

SHERIFF'S BOOKS ARE FOUND CORRECT.

The Grand Jury held a session this morning and received a partial report from Colonel E. B. Bullock, the expert, but no other business was transacted.

Colonel Bullock's report was in regard to the accounts of ex-Sheriff Oscar L. Rogers, whose books he has been experting. He reported that they were correct. This is the first county office that he has experted and he will now begin work on the books of County Clerk Cook and will take up the other county offices in turn. There is little work to be done by the present Grand Jury, as the one preceding it investigated public matters thoroughly before it disbanded.

MERE PITTANCE FOR WIFE.

DR. EVERETT WILLIAMS SAYS HE IS TOO POOR TO PAY MUCH ALIMONY.

Dr. Everett G. Williams, who, it is alleged, collects bills for his brother in the mornings and practices dentistry in the afternoons, will not have the amount of alimony he was directed to pay his ex-wife decreased without a struggle.

Recently Williams filed an affidavit asking that, on account of his illness, the alimony be decreased from $15 to $7.50 a month.

This morning Mrs. Charlotte Maud Williams filed an answer to her former husband's affidavit, in which she claims that he has been regularly employed by his brother, Harry G. Williams, the coal dealer, and has received $40 a month for his services besides what he makes operating upon decayed teeth.

The marriage of Dr. Williams and Charlotte Maud Adams a few years ago was a social event of considerable importance, but their love soon grew cold and the young wife secured a divorce on the ground of failure to provide. She was awarded $15 a month alimony and now the husband wants that sum decreased on the ground that he is too ill to make that amount.

NO BLACKLIST FOR RAILROAD.

STATEMENT OF WAGES OF COMPANY PLACED BEFORE COMMISSION.

PHILADELPHIA, Jan. 21.—The first witness called by the Coal Strike Commission today was Gilbert Jones, one of the assistant mine superintendents of the Temple Iron Company. He denied positively that a blacklist existed at the company's collieries.

On cross-examination the witness said he had issued orders to the foremen of the collieries over which he had supervision, not to employ as miners any of the men who were on strike at the Maltby colliery of the Lehigh Valley Company. These men struck before the general suspension was inaugurated.

George L. Houser of Scranton, auditor of the Temple Iron Company, presented statements relative to wages. These included a statement of the earnings of the company men for 1901 and the earnings of the contract miners and laborers. The Temple Company employes 759 company men, whose average earnings in 1901 was $1.59 a day. The company has no company stores.

The Temple Iron Company then rested its case and the Lehigh Valley Coal Company proceeded to call its witnesses.

It will be formally submitted Saturday, when Judge Melvin will take the matter under advisement.

The Alameda Trustees take the position that the law creating the office of City Justice of that city is unconstitutional and, for that reason, have refused to provide Tappan with a court room. WILL CONTROL THE LIGHT IN MANY COUNTIES.

Eugene J. de Sable Tells of Plans of the Big Combine—Will Give Lower Rates.

Eugene J. de Sabla, the president of the Bay Counties Power Company, in a recent interview, gave out some very interesting details regarding the combine which has absorbed the Oakland Gas, Light and Heat Company.

The negotiations that have just culminated began, so says Mr. de Sabla, about April, 1902. From time to time options to purchase were secured at a satisfactory price on the several companies' properties. Mr. de Sabla went abroad and talked the great consolidation of light and power interests over in Europe and in the East. It has been decided to issue to the amount of $10,000,000 5 per cent funding gold bonds, to run thirty years. In round figures $8,000,000 of these bonds have already been placed with syndicates and large investors in blocks.

The California Gas and Electric Corporation has 1,000 miles of pole transmission electric lines, in addition to the gas and power plants acquired. It is said by Mr. de Sabla that no electric or gas light is burning from Chico to Oakland that is not now controlled by the large new corporation. Colgate, the New York multi-millionaire, is the president; de Sabla and John Martin, vice presidents, and R. M. Hotaling, treasurer. Among the property acquired are those of the Consolidated Railways of Sacramento.

"The general purpose in consolidating," said Mr. de Sabla, "is to secure common benefits to all concerned. We seek to reduce the cost of utilities. The principal reduction to be made will be in the price of gas in Oakland and in Sacramento. We do not enter San Francisco and are serving only the interior. Our policy has always been to put the price of utilities as low as possible and to trust to the increase in consumption thereby induced for profit. As fast as we feel warranted in making reductions in price for light and power we shall reduce. We have our contracts for furnishing light and power on long terms. Sacramento has a good gas plant. We have as complete a monopoly in the gas territory in which we are operating as we have of electric light and power. The control of the stock of the California Gas and Electric Corporation is held by the Bay Counties Power Company."

In a circular letter the bonds of the California Gas and Electric Corporation have been offered at par and five shares of stock for each bond taken. The market value of the stock is rated at $20 per share, so that the purchaser of a bond gets the equivalent of $1,150 in bond and stocks. The companies that are absorbed have outstanding bonds that amount, in the aggregate, to $8,792,000, or about their combined capital stock. To secure the bonds of the California Gas and Electric Corporation it is proposed to pledge the stocks bought outright from the several companies as security for such bonds as it may be necessary to issue in payment for these shares, thereby giving them the character of collateral trust bonds, which rates them as second mortgage bonds.

The California Gas and Electric Corporation was originally incorporated with capital stock amounting to $30,000,000. After Mr. De Sabla returned from Europe last September the capital was reduced to $15,000,000. That was found to be sufficient for the purchase of all the properties which the corporation sought to acquire for the purpose of controlling the lighting and power of the great territory in Central California included in the fourteen counties enumerated. Really, the Bay Counties Power Company, which was the larger of the several corporations that have now just been brought together, has swallowed the others. The terms, so Mr. de Sabla says, are entirely satisfactory to all the corporations interested in the deal. The manager or executive officer appointed is John A. Britton of Oakland.

The counties in which the great corporation known as the California Gas and Electric Corporation has secured sway by purchasing the plants of the other corporations named, together with their franchises, rights of all kinds, etc., are the following: Nevada, Sacramento, Placer, Yuba, Butte, Yolo, Colusa, Sutter, Solano, Napa, Sonoma, Marin, Contra Costa and Alameda.

IMPROVEMENTS ON THE NORTH SHORE ROAD

One of the first steps taken by the North Shore Railroad in its development work in the western part of Marin and Sonoma counties is to put the road in good shape, and nearly a thousand men have been engaged in reconstruction work for the past three months. Last July the company secured a sightly tract of land overlooking the Russian river. It has been surveyed, the hills terraced with roads and named Monte Rio Park. During the past summer San Francisco people were quietly keeping track of the company's work, and when the announcement was recently made that the selection of lots was in order, forty lots were promptly purchased during the first two hours of the sale, and as many more lots have been selected since. The lots are not being sold at a speculative price, however; only enough being charged to cover expense of opening the tract, the idea being to build up the country, to increase the population, and the effort is meeting with great success. At the start it was thought that the home-builders at Monte Rio Park would be confined to San Francisco people, but inquiries are being received at San Francisco offices of the company from interested people in all parts of California.

The lunch and grill rooms on the North Shore ferries have been refitted and the service in the future will be conducted a la carte by the company.

Geo. A. Young, for many years connected with the Southern Pacific Company's dining car department, has been appointed Superintendent of Commissary, San Francisco, and will give his personal attention to the cuisine, to the end that the service shall be satisfactory to the traveling public. A competent staff of cooks and waiters have been engaged and any inattention or dissatisfaction should be promptly reported to the superintendent.

Every day an extra bill of fare will be provided, offering such special dishes that the markets of the bay afford.

A Well-Known Gentleman Makes a Remarkable Statement

HE ASSURES RHEUMATIC SUFFERERS THAT ONE BOTTLE OF

Paine's Celery Compound

Banished His Pains and Agonies

The startling and happy cures wrought by Paine's Celery Compound for rheumatic sufferers have deeply impressed medical men everywhere, and today, the best practitioners are recognizing the great value of the Compound, and prescribe it with confidence.

Paine's Celery Compound stands unequaled as a cure for all the varied forms of rheumatism. At this season its good work is apparent in thousands of American homes. Men and women, lame and crippled, and utterly helpless from the terrible disease are being restored to activity, health, and strength. Paine's Celery Compound is the only medicine that rescues and saves the despairing victim who is told that he or she is incurable. Mr. L. A. Fleshman, Gap Mills, West Va., writes about his happy experience with Paine's Celery Compound; he says—

"I had rheumatism in my left arm and shoulder, could not sleep, and had no appetite. I visited my sister who lives in Frankford, and she told me that she had been afflicted just as I was and Paine's Celery Compound had done her more good than anything she had tried, and she advised me to use it. I got one bottle and used it, and the result was I slept well, had a good appetite, and the pains of rheumatism left me and I have not felt them since; in fact, it has cured me and I feel like a new man."

ENGLISH OPINION UNDER RESTRAINT.

NEW YORK, Jan. 21.—English opinion respecting the Venezuelan affair is kept under restraint, the London correspondent of the Tribune says, mainly because the American journals have been good-natured and tolerant. There will be a general denunciation of the Balfour government if the American press were more critical and outspoken in condemning the provocative course of the German naval commanders and objecting strenuously to the prolongation of the blockade, when Mr. Bowen is fully armed with authority to propose a settlement and to offer an adequate guarantee. The ministers, without doubt, are anxious to bring the blockade to an end without delay, but are hindered by their engagements with Germany. It is not believed by well-informed men here that the Venezuelan affair was prearranged at Washington. It is conceded that the State Department when consulted insisted upon having pledges that no territorial acquisitions were intended, and subsequently exerted itself to prevent wanton attacks upon the fortifications and towns. Mr. Balfour and Lord Lansdowne were clearly imposed upon by the German Emperor and duped into making a most unpopular alliance with a power, which could not keep its naval officers under restraint.

FAVORS LOCAL GOVERNMENT.

(Correspondence Associated Press.)

ST. PETERSBURG, Tuesday, Jan. 6.—The Novoe Vremya's Manchurian correspondent reports that a surveying party has begun laying out a number of branches of the Manchurian Railroad, along the Kwang Chen Tse, to Girin. It will be about 135 miles long. Girin is an important commercial center, being located at the crossing of many roads and the head of navigation on the Sungari river.

A new kerosene exporting company has been organized without State aid, which had been refused. The company has the support of several large interests and intends to enter the British market, copying the Standard Oil Company, Rothschild and Nobel methods.

The Russmiya Vodomostie reports that the proposal to introduce local self government in a modified form in the Western provinces, which have hitherto been deprived of this privilege on account of their predominating or partial Polish population and on military grounds, is favored by Interior Minister Von Plehwe. It is said that he will re-introduce the measure which the late Interior Minister Sipiaguine withdrew from the council of the empire when he assumed office. This measure caused the downfall of Minister Goremykin. Finance Minister Witte had placed himself in violent opposition to it, but he is declared to have subsequently changed his views about local self government and constitutional reforms.

SHE NOW CLAIMS DAMAGES.

CHICAGO, Jan. 21.—Because her employers, Truax, Greene & Co., insisted that she be vaccinated, and because she alleges that she became ill from the effects of that vaccination, Miss Grace Voorhees has brought suit against her former employers for $50,000 damages. Miss Voorhees asserts that she was able to earn $100 a month in February, 1901, and that she submitted to the vaccination because she thought that it would be properly done and that she could not retain her position unless she did submit. She avers, however, that the vaccination was not well done, that from its effects she became ill and that she will never again regain her strength because of the poison which was inserted in her system at that time.

IT PAYS TO TRADE IN THE MISSION

AN ELECTRO-MAGNETIZED AND AMMONIO-CAMPHORATED

CREAM LINIMENT

A MARVEL OF REMEDIAL EFFICACY AND

A BOON TO BOTH MAN AND BEAST.

THE OUTCOME OF TWENTIETH CENTURY ADVANCES IN

ELECTRO-CHEMICAL SCIENCE.

POSSESSED OF MARVELOUS PROPERTIES.

ELECTRO-MAGNETINE is believed to be the only preparation yet devised for curative purposes endowed with such peculiar properties that when applied to any part of the human body, accompanied with brisk rubbing with the naked hands, it causes an active and energetic electro-magnetic action to be set up in the parts to which it is applied.

The wonderful potency of this peculiar form of electro-magnetic force, individual, or animal, magnetism, or whatever it may properly be termed, in curing certain forms of human maladies has been demonstrated beyond the possibility of doubt.

Whether ELECTRO-MAGNETINE is actually charged with electro-magnetic properties infused into it in the process of manufacture, or whether it serves merely as a medium through which electro-magnetic forces are developed by active rubbing and which are, through it, transmitted or applied to the parts operated upon, we are not yet quite prepared to say, but of one thing we are certain, viz: That the combined use of ELECTRO-MAGNETINE with active rubbing is much more efficient in a curative way than either of these agencies employed separately.

The free application of the ELECTRO-MAGNETINE to **Swollen Joints,** accompanied with vigorous rubbing with the bare hands, sets up in the affected parts such an active electro-magnetic action as to greatly promote the circulation of the blood through the swollen parts and thereby hasten absorption and consequent reduction of swelling, stiffness, soreness and pain.

IMPORTANCE OF THOROUGH RUBBING.

Too much stress cannot be laid upon the importance of thorough and vigorous rubbing of the affected parts after a free application of the ELECTRO-MAGNETINE. In fact, the brisk rubbing should be kept up until the surface to which the ELECTRO-MAGNETINE has been applied has become quite dry and wholly free from the lubricated feel and glossy look due to the application of the **Cream Liniment.** In all **Chronic,** or long standing, **Swollen,** or **Enlarged Joints,** the thorough course of treatment above directed should be applied two or three times a day.

WEAK BACKS MADE STRONG.

By a somewhat protracted use of ELECTRO-MAGNETINE, accompanied with thorough rubbing, or massage, weak backs are made strong. **Sore Muscles and Lame Backs,** whether arising from strains, over-exertion or **Rheumatic Conditions** of the system, are relieved, as if by magic, by the thorough application of this remedy. Foot-ball and base-ball players are amongst those loudest in their praises of it as giving most prompt relief from **Muscle pains, Lameness** and **Soreness** caused by over-exertion and strains.

Especially has ELECTRO-MAGNETINE proven its power to cure **Obstinate Cases of Swollen** or **Enlarged** and **Stiffened Joints,** whether arising from **Rheumatic, Gouty** or other conditions of the system, which cause inflammation, effusion and consequent enlargement of the joints.

IN ALL CHRONIC OR LINGERING AFFECTIONS,

For the cure of which ELECTRO-MAGNETINE is recommended, it should be thoroughly applied two or three times daily, as above directed—not omitting thorough rubbing with the bare hands.

OWNERS OF LIVE STOCK

Should know that ELECTRO-MAGNETINE is quite as effective, in a curative way, when applied to horses and cattle suffering from **Sprains, Bruises, Lameness, Swollen** or **Stiffened Joints** and kindred affections, as when applied to human flesh.

LOTTERY DEALERS MUST PAY FINE

In the case of "John Doe" and Ah Quong, Chinese, who were found guilty by Police Judge Smith of selling lottery tickets in 1899, Superior Judge Ellsworth has handed down an opinion affirming the judgment of the lower court.

The case was submitted on briefs by Deputy District Attorney Samuels and Attorney Joseph F. Coffey, representing the Celestials. The Chinese were fined $300 each, and have been out on an appeal bond.

THE CEMENT TRADE IN CANADA.

TORONTO, Jan. 21.—The Canadian manufacturers of Portland cement will make an effort to secure the entire trade of Canada for themselves. Last year American cement to the value of $699,000 came into Canada despite a duty of 12 1-2 per cent. The Canadian manufacturers will not seek to increase this duty, but will ask the government to make strict interpretation and enforcement of existing laws with regard to undervaluation.

All Were Saved.

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnston of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma, till it cured her, and all our experience goes to show it is the best Croup medicine in the world." A trial will convince you it's unrivaled for Throat and Lung diseases. Guaranteed bottles 50c and $1.00. Trial bottles free at Osgood Bros., druggists, Seventh and Broadway.

SOUTHERN PACIFIC SHOP NEWS.

ITEMS THAT WILL INTEREST THE WEST OAKLAND YARD EMPLOYES.

The members of the Pacific Coast Railway Club who went from the West Oakland railroad yards last Thursday to attend a meeting of the club held in Portland Saturday, returned yesterday after a most delightful trip.

The meeting proved to be one of the most enjoyable yet held by the club, and much benefit was derived by the members in attendance. Master Mechanic Russell and Secretary C. C. Borton of the West Oakland yards, accompanied the club in their special car, the Mt. Hood, and also returned with them yesterday.

Several instructive papers were read at the meeting and the affair proved to be one of the most successful ever held by the club. Ususally the meetings are held either in Sacramento or San Francisco.

RAILWAY BROTHERHOOD BALL TO BE HELD IN SACRAMENTO.

The United Brotherhood of Railway Employes are to give a ball in Sacramento on January 28, and as the employees of the Sacramento shops are good entertainers the affair will be a grand success. The membership of the organization in Sacramento is 1800.

The ball to be given will make the second annual affair to be attempted by the local organization at Sacramento, and the committees are striving to make it eclipse the one of the previous year.

George Estes, president of the Brotherhood of Railway Employes, will be present, as will several others of the prominent officials.

SOUTHERN PACIFIC IS BORING FOR OIL.

The Southern Pacific has put a force of men to work boring for oil at Shuman Canyon, near Casmalia. A siding has been constructed so that the oil tank cars can be run close to where the first oil well will be bored. Preparations are being made to sink four wells so that the division there can be supplied with all the oil necessary.

BUILDING OIL TANK FOR FERRY OAKLAND.

A large oil tank is being constructed at the ship yards that, when finished will be installed on the ferry Oakland, which is soon to be completely remodeled. The tank is to be double seamed and riveted. Preparation for the repairs and changes to be made on the Oakland have commenced. The most important changes will be the enlarging of the seating capacity and the building of the stairways similar to those of the ferry Berkeley.

RAILROAD SURVEYORS WORKING IN FOOTHILLS.

The Southern Pacific surveyors are working in the foothills in Placer county laying out the lines for the tunnel that is to be constructed through the mountains. The work on the tunnel is soon to be commenced, and the construction expedited.

NOTES AND PERSONALS GATHERED ABOUT THE YARDS.

Tom Cox, employed in the boiler making department, had one of his fingers badly crushed Monday. He is under the care of a physician.

Jack Roack badly bruised his hand yesterday while engaged in cleaning a locomotive.

Dan Keefe is still confined in the railroad hospital and it is feared that his leg will have to be amputated to prevent blood poisoning.

Chick Cooper and Gassie Rudech went duck hunting Sunday and returned with a good bag.

Foreman Frank Williams is directing the repairs on the ferry Oakland at the pier.

Jack Johnson of the shipyards, who was on the sick list, has returned to work again.

The wife of Engineer A. G. Phillips has left for a trip to Los Angeles.

P. J. Flynn is soon to make a trip to Arizona for a vacation.

Frank Merrill of the ship yards had a narrow escape from losing his hand recently. He has charge of the huge band saw, and accidentally put his hand too close to the revolving saw. The flesh was cut to the bone, but fortunately he withdrew his hand before the saw made another revolution, thereby saving it from being cut off. He is under the care of a physician.

DR LORENZ ARRIVES AT VIENNA

VIENNA, Jan. 21.—Dr. Lorenz, who has arrived here from London, told a representative of the Associated Press of his impressions in the United States.

"Above all," he said, "I was struck with the magnificent charity of the Americans and their immense gifts to educational institutions and hospitals. Their willingness, even their anxiety, to spend money in aiding others, is almost beyond belief."

Next to this condition, Dr. Lorenz said he has marveled most at the large number of alleged healers in America, naming Christian Scientists and faith curists of every description, who seem to flourish there. The doctor was enthusiastic with regard to the practice of medicine in the United States and declared that American doctors, nurses and hospitals lead the world.

"American physicians represent progressiveness," continued Dr. Lorenz, "while the English physicians are extremely conservative. In America it was difficult to accommodate the doctors and students who desired to attend my clinics, whereas during my last week in London many of the most eminent surgeons showed no interest in the new methods while others who were present declared the old way to be the best."

Dr. Lorenz said in conclusion, that he anticipated revisiting the United States, but it was impossible for him to tell when he would have the opportunity.

FOOD VS. DRUGS.

A Drug Man's Wisdom That Counts.

It's a shrewd man who, while in the drug business, learns that although drugs are all right in their place, the use of proper food will make medicine unnecessary in the majority of cases.

"Traveling through various towns," writes a drug salesman from Lancaster, Pa., "drinking different waters to which I was not accustomed, eating strangely prepared meals at irregular hours, I contracted dyspepsia, accompanied by nervousness, loss of sleep and consequently loss of energy. I often had the 'blues,' that indescribably tough feeling which makes one look on the dark side of every picture and see the shadows of life rather than the substance, imagine the thousand calamities that were never in existence, and so render life almost unbearable. Many thousands of men under the circumstances would have resorted to stimulation from drugs or liquor.

I happened to read an article on Grape-Nuts about a case similar to my own and determined to give the food a trial. It agreed with me from the start, and the miserable distress that usually came after eating did not manifest itself when I ate Grape-Nuts. I asked for this food at every hotel at which I stopped and made it the principal part of the meal. My stomach soon got so that I could eat any kind of rich food in connection with Grape-Nuts without it distressing me. My dyspepsia and nervousness disappeared and life looked bright and happy once more. I am now well, healthy, happy and able to work 16 hours out of the 24 and can sleep like a healthy child the other 8 hours.

My family soon tires of mushy cereals, but we never tire of Grape-Nuts. The children thrive on it and enjoy it. You may publish this if you think it will encourage others to try Grape-Nuts instead of medicine or spirituous remedies that stimulate the system for a time but do not build it up." BADLY BURNED BY GASOLINE.

MISS JENNIE M'KEE OF ALAMEDA SERIOUSLY INJURED AT HER HOME.

ALAMEDA, Jan. 21.—Miss Jennie McKee, daughter of Mrs. Catherine McKee and sister of James McKee, the amateur baseball player, had a narrow escape yesterday morning from being burned to death at the family residence, 905 Chestnut street. The heroic work of her brother saved Miss McKee from that awful fate. As it is, she is severely burned about the face and hands, and is receiving attention at the Alameda Sanitorium. It is impossible yet to determine how seriously she is injured.

The accident happened while the young lady was cleaning a pair of gloves with gasoline. The inflammable vapor ignited from the flames of a grate fire, and in a flash the bottle of fluid which Miss McKee had in her hands exploded, scattering the fire over her face and hands and igniting her clothing.

Her screams attracted the attention of her brother, who rushed to her room, and taking in the situation at a glance grasped the covers from the bed and wrapped them around her, smothering the flames.

A conveyance was summoned at once and the young lady conveyed to the sanitorium. James McKee was slightly burned in his efforts to save his sister's life.

GOVERNOR PARDEE TO ASSIST COMMITTEE

The following correspondence is interesting:

OAKLAND, Dec. 10, 1902.—Col. Thomas F. O'Neill, President and Treasurer McKinnon Memorial Committee, 24 Page street, San Francisco.—Dear Sir: Your communication informing me that I have been made a member of the McKinnon Memorial Committee has been received. I appreciate the compliment and accept the membership. No one has a higher appreciation than I have of the grand work which Father McKinnon did in the Philippines, and it appears to me to be entirely proper that he should be commemorated by the erection of a monument. It will probably not be possible for me to attend many of the meetings of the committee, but I shall be glad to co-operate in other ways. Very truly yours, GEORGE C. PARDEE.

DENVER, Col., January 10.—Colonel Thomas O'Neill, San Francisco.—Dear Sir: Your favor of December 3d, informing me that I had been selected as a member of the McKinnon Memorial Committee, would have been answered sooner but for the fact that I have been for several weeks absent from Denver. Father McKinnon was one of my most highly valued friends, and one of the most thoroughly upright, good men I have ever known, and I am more than glad to do what little I can to assist in the erection to him of a memorial in the city which he considered his home.

I will be greatly obliged if you would write me something about what the committee expects to do, and what sum they expect to raise in order that I may cooperate, not only by my own contribution, but by bringing the matter to the attention of the ex-officers and soldiers of the Philippine war living in this vicinity. Yours truly,

FREDERICK FUNSTON,
Brig.-Gen., U. S. A.

ROHAN CHARGES HARRY WILLIAMS

TELLS BOARD OF WORKS INFERIOR COAL IS BEING SUPPLIED THE CITY.

The Board of Public Works held a long session this morning on account of it being the time set for receiving bids for printing the city charter. The board waited until 11 o'clock for these, but only one was received. It was from the Oakland TRIBUNE, and as it was the only one presented, the matter was turned over to the City Attorney.

A charge was brought by John Rohan, a coal dealer, against Harry Williams, alleging that he is furnishing coal at $8.50 per ton, as per contract, but that the coal is not of the quality contracted for. Samples were exhibited. The matter was referred to the Superintendent of Streets, as the coal is for the use of the street roller.

The following resolutions were adopted:

"Resolved, That the following Council resolution be and they are hereby referred to the Superintendent of Streets, with power to act thereunder, to-wit:

MUNICIPAL OWNERSHIP IS WARMLY DEBATED.

GAVIN M'NAB AND COLONEL JOHN P. IRISH CROSS TONGUES ON THE WATER QUESTION.

Colonel John P. Irish and Gavin McNab, the well-known San Francisco lawyer-politician, debated the policy of municipalities owning their own water works before the New Era Club in the parlors of the First Methodist Church last night. Mr. McNab took the side of municipal ownership and Irish combatted the proposition.

As both men are able and keen debaters, well informed, and with a talent for logical presentation, it is needless to say that the discussion was entertaining and instructive. It must be said that each speaker made a strong showing for his side.

William Lair Hill, president of the club, presided, and introduced the speakers, who received greetings indicating that each had warm admirers in the audience.

McNab, having the affirmative, led off, the trace of Scotch burr on his tongue seeming to give incisiveness to his points, which were made with a pithy directness that taxed all Colonel Irish's adroitness and forensic skill to parry. He opened by declaring that despite the fact that some declared the United States had no business to be in business, it had been in business at all times, and the question was not whether or not it should be, but how far it should go. As examples of how far it was actively engaged in commercial affairs, he called attention to the postal department, public school departments, the park and sewerage systems which are managed by our government. The matter of municipal ownership of water works, McNab stated, has passed from being a theory and speculation to one of experience and fact.

"San Francisco is a solitary example of a great city which does not own its own water works. Her position is unique and eccentric in comparison with the other great cities of this enlightened world. The water supply of a city should not be left to individual control and to prove truth of what I say, let me call attention to the fact that there are at the present time less than twenty-five cities in this country which do not own and operate their own water works. Shall it be said, then, that we alone are right and that the others have erred?

AN ESSENTIAL OF LIFE.

"Water is a prime essential of life and it partakes of a monopoly, public monopoly or private monopoly, which is not open to competition, for a man cannot go forth and find his own water. No individual is a supplier to a large city. The magnitude compels corporation effort, and it is whether or not you be your own monopoly. Suppose the private corporation fails, its water is of an inferior grade, it is unable to supply. Shall the city cease to grow? Suppose the shareholders are unwilling to increase the corporate control so that they might increase the supply? What are you going to do? You cannot compel a private corporation to act. Shall you say Oakland will stop? Are you going to be contented with an inferior grade of water because somebody else is unwilling to do something?"

The speaker then referred to the abundance of pure water in the entire State which "only awaits man's invitation to come." As the matter is at present, declared McNab, it is a case of Mohammed and the mountain. He also referred to the municipal control of water in Eastern cities and quoted rates which demonstrated the vast difference of the cost of water under the management of the people and of corporations. In the hands of a municipality the rate in some instances was seven times lower than in this city and a handsome profit was being realized by the municipality.

ORIGIN OF PUBLIC OWNERSHIP.

"Municipal ownership is of comparatively recent thought," continued the speaker, "and as we grow older we will learn to do things. When the public ownership of a utility fails it is heralded abroad because it is a matter of interest to all, but it is different with private management. They do not concern so many people, but the history of many corporations indicates that success has not graced all their efforts and the bankruptcy courts are constantly in motion. Because in the beginning a venture is not successful should we abandon it without trying? There is no reason why a municipality cannot hire men of as good intelligence as a corporation. The worst that can be said about some municipal managements is that they have not in all instances come up to the standard. The enormous development of the United States has drawn away the best minds of the country to the neglect of municipal affairs, and consequently we have an inferior order of men which are allowed to manage.

"But there is a reaction. The attention of great minds is being drawn to these conditions and a better class of thoughts, more patriotic minds, are now dwelling upon such subjects. We are going gradually on. We wrestle with problems. It is the genius of the American minds of our people to solve and this may be the last but not the least matter that will be disposed of.

"The private corporation is the quality in municipal affairs which corrupts and then seeks to take advantage of its own wrong in declaring, when people point out corrupt politicians. This condition of affairs will never cease. Take it away and you remove the temptation.

FIXING WATER RATES.

"The constitution of California makes it mandatory upon Supervisors and trustees to fix water rates. In other words the buyer is thereby enabled to fix the price of the seller. The people suppose they have electvisors and consider that they fix the price, but that is only theory. The practice is different—when corporations happen to own the men who the people who suppose they have elected. The rates are then fixed by the corporation through the people. If the plans of the corporate interests miscarry and the people really do elect the men then the matter is reviewed by courts. Remove the corporation and you take a step for the betterment for the purification and general morality of the community."

COLONEL IRISH RESPONDS.

Colonel Irish opened by pointing out the difficulties that attended procuring a sufficient and certain water supply for San Francisco and Oakland. He said there were no fresh water lakes or large perennial streams near by from which a supply could be drawn, as was the case with large cities in other parts of the country. Water costs more here than elsewhere, because the supply had to be artificially developed. Great reservoirs had to be constructed at heavy expense and large catchment areas purchased to preserve the water from contamination. Whether the water was developed by impounding the surface catchment or by boring artesian wells, it has to be piped and pumped a long distance. In the earlier days of their existence, San Francisco and Oakland both felt the supreme necessity for a water supply, but the communities were not rich enough to incur the enormous expense, but private capital stepped in and furnished the water. Locally considered, therefore, the water question presented a condition rather than a theory. After private capital had constructed systems for supplying the public with water, it was confronted by a provision in the law permitting the consumers to fix the price for which the water should be sold. This at once brought on a conflict between buyer and seller that has obscured the real merits of both public and private ownership. But the speaker said he would not limit himself to water, but would attack the economic fallacy of municipal ownership, or socialism, at all points.

A REBUKE FOR INCIVISM.

"We are now receiving the fruits of civic inattention," declared Irish, "and have been led astray by demagogue politicians. I'm standing my share of water rates with some degree of patience and I hope you are, but this idea of municipal control of public utilities is as yet a matter of theory and not until you find a business reason should you proceed. Do not be led astray in the belief that with the municipal ownership of water supply all forms of immorality will disappear. It will not. This water proposition is used as an entering wedge for the entire program of socialism, the entering wedge of something we must consider. It is a plan of confiscating and expropriating. Socialists are advocating it and politicians are following the Socialists. It will be adopted by demagogic politicians and leads an entire system of socialism. It is the first piece on the program in every instance, and it is, in my mind, better to bear the ills we have than rush to others.

POLITICAL MANAGEMENT BAD.

"Any merchant could conduct the postoffice better than the United States. That department of our government charges $2.50 per pound to carry mail, and the deficit since 1789 is $1,000,000,000. It has been the judgment of economists since the beginning that the postal department is an expensive and unprofitable thing. It was doubted whether it was wise to put the government into that business and the doubts have been justified. And they want the government to manage the telegraph and railroad systems. Your councils will steal revenue just as your present organization is suspected of corporation influence. The best Mayor of this city is the man who is the least suited for the place and the least likely to be elected.

"By this suggestion, you would get change, but change according to Webster, does not mean reform. In Chicago, where the municipality runs the water works, you cannot drink it, school children have to bring boiled water to school with them, with a certificate from their parents that it has been boiled. In Washington, municipal control of water, it is not fit to bathe in. I saw a man use a trowel to get some of it off on one occasion."

ARE CRUSHED TO DEATH.

A Runaway Freight Train Kills Two Men in the South.

SAN BERNARDINO, Cal., Jan. 21.—Two men were killed and one other seriously injured in a runaway accident to a Santa Fe freight train at Keenbrook in Cajon Pass, fourteen miles from this place, at 12:35 this morning. Conductor Philip H. Stewart was instantly killed, his head being severed from his body, and Fireman Charles W. Beckett was crushed to death. Engineer Walter Reed was crushed and badly injured. He was removed as soon as possible to the Sisters' Hospital in Los Angeles, the same train bearing the body of Conductor Stewart to his home in this city.

Details of the accident show it to have been one of the most peculiar that ever happened on this division. Freight train No. 33, consisting of forty-one loaded freight cars and twenty empties, in charge of Conductor Stewart and drawn by two engines, was proceeding westward down the Cajon grade. When within a mile of Keenbrook, where the grade is extremely heavy, a tire on one of the drive wheels of the first engine became loosened.

After an examination of the break it was decided to send the disabled locomotive ahead to lay up on the Keenbrook siding, its engineer, Clark, agreeing to sound two blasts of the whistle when he should reach the siding. In taking the siding, however, the broken wheel caught in the frog of the switch and for an hour the engine was stuck half way on the main track.

Not hearing the agreed upon signal, Conductor Stewart took the second engine and, leaving the train of cars in charge of a brakeman, proceeded down the track to learn the cause of the delay. Just as the second locomotive reached the siding the trainmen were startled to see the heavy train of freight cars come thundering down the steep grade, running wild and entirely beyond control. Before anything could be done to avoid the disaster, the head car of the runaway train crashed into the second engine, which in turn collided with the disabled locomotive on the siding. Stewart was caught in the wreck before he could jump and Beckett was crushed to death in the wreckage. Both engines were badly damaged and nearly half of the runaway cars were wrecked.

The overland, west bound, which was following the freight and had been flagged by the rear brakeman, took the dead and injured and brought them to this city.

HE SAYS HIS LIFE WAS IN DANGER.

Railroad Man Tells Why He Shot Discharged Employe.

SACRAMENTO, Jan. 21.—A special telegram to the Bee from Auburn this morning, states that Julius Orsolina, who was shot three times at Rocklin early yesterday morning, is in a precarious condition and will probably die.

He was shot by George Scully, with whom he worked in the railroad company's round house.

It appears that Scully is the head machinist at the round house and that Orsolina held a subordinate position. His services were not satisfactory for some reason and Scully reported him to the master mechanic the night before the shooting, with the result that Orsolina was discharged.

Scully says that he had learned that Orsolina threatened to "do him up" or take his life, in revenge for having caused his dismissal.

A few minutes before 6 o'clock yesterday morning, Orsolina approached Scully at the round house and Scully warned him to keep away. A minute afterward, Scully was seen to fire three shots at the discharged employe. An examination of his revolver showed that he snapped the trigger five times, but two of the cartridges failed to explode.

The shots penetrated Orsolina's back.

Scully declines to make a statement further than to say he had heard threats from Orsolina to take his life. Orsolina is scarcely 21 years of age, while Scully is 25. The latter has a wife and child. His relatives live in Washington, Yolo county. He delivered himself up to Sheriff Keena and immediately secured counsel.

There are two witnesses to the shooting, but they have not yet made a statement with respect to the tragedy.

Orsolina has made a dying statement, in which he declares he knows of no reason for the attempt to take his life.

MORE MONEY FOR FIREMEN.

RESIGNATIONS OF THE MEN WILL BE RECEIVED ON THE FIRST OF MARCH.

The proposition of receiving the firemen's resignations and reappointing them at the new salary schedule came up at the session of the Police and Fire Commissioners this morning, when Mayor Barstow moved that it take place the first of April. Commissioner Turner amended the motion by substituting February 1 for April 1, but as there was no one to second the motion save Mr. Barstow, who had presented the previous motion, it could not be voted on and a deadlock resulted.

This was finally overcome by a compromise being effected which fixes the date at March 1, and the motion carried.

At the request of Chief Ball the City Engineer was instructed to make a survey of the lots recently purchased in Alden and Golden Gate districts, which are now occupied by engines Nos. 7 and 8.

The following resolutions ewere adopted:

"Resolved, That the claim of Gertrude Mills, dated November 25th, 1902, amounting to $7.50, for services as stenographer and use of typewriter for five days in revising the book of rules and regulations governing the Police Department of the city of Oakland, be and is hereby granted, amount allowed against the police fund and referred to the City Council for ratification.

"Resolved, That the claim of James A. Johnson, dated January 19, 1903, amounting to $1.20 for recording deed to lot purchased for the Fire Department in Golden Gate, and the claim of Stocker & Holland, dated January 19, 1903, amounting to $15 for certificate of title to lot purchased for the Fire Department in Golden Gate, both claims being against the fire fund, be and are hereby approved, amounts allowed and referred to the City Council for ratification.

"Resolved, That Council resolution No. 27,964, authorizing the Board of Police and Fire Commissioners to erect the necessary poles and string wires over and along Adeline street, and place a fire alarm box at Third and Adeline streets, and a fire alarm box at Boole's shipyard, be and is hereby referred to the Superintendent of the Fire Alarm and Police Telegraph Department with power to act thereunder.

"Resolved, That Fenton G. Thompson, special police officer, be and he is hereby promoted to substitute police officer of the city of Oakland. And be it further

"Resolved, That substitute police officer F. G. Thompson be and he is hereby detailed to act as regular police officer in place of Henry McCloy, temporarily retired, to take effect February 1st, 1903, vice Charles H. Bock Jr., promoted.

"Resolved, That Thomas Merrick be and he is hereby appointed substitute police officer of the city of Oakland, to take effect February 1st, 1903.

"Resolved, That resolution No. 2686 of the Board of Police and Fire Commissioners, detailing Special Police Officer Charles H. Bock Jr. to act as regular police officer in place of Henry McCloy, temporarily retired, be and is hereby rescinded. And be it further

"Resolved, That Special Police Officer Charles H. Bock Jr. be and he is hereby promoted to regular police officer of the city of Oakland, to take effect February 1st, 1903."

A new set of rules for the government of the Police Department has been prepared by Chief Hodgkins and was submitted to the Board of Police and Fire Commissioners this morning. The new rules were partially discussed and then referred to Commissioner Turner.

Secretary Jackson and Chief Hodgkins will review the matter and report at a meeting in the near future.

An adjournment was then taken.

BIG SUM FOR THE PLAGUE.

HINT OF THE ACTION PROPOSED BY THE GOVERNOR IN MATTER.

SACRAMENTO, Jan. 21.—A hint of what the Governor proposes to do in the plague matter will be found in a bill introduced by Senator Knowland of Alameda this morning.

That he did not expect to introduce any such measure when he arrived at the Capitol this morning is evident enough from the fact that he told a Bee reporter, early in the day, he would have no bills to present, but after a visit to the Governor's office he came back with a typewritten document, calling for an appropriation of $100,000 to be used, if necessary, for the prevention of the introduction and for the investigation and suppression of contagious and infectious diseases.

ordered the doors to be locked by the sergeant-at-arms, while the list of absentees was called for the purpose of ascertaining their vote.

It was fully twenty minutes before the roll could be called. The resolution finally carried by a vote of 56 to 21.

Another lively scene was enacted over a resolution introduced by Olmstead, which provides for a visit by the Committee on State Prisoners and Reformatory Institutions to the State prisons at Folsom and San Quentin and the State Reform Schools at Ione and Whittier.

Again was the sergeant-at-arms instructed to lock the door while the roll was being called. After considerable difficulty, the vote was ascertained to be 55 ballots for the resolution and 20 against it.

RETAIL DRUG CLERKS.

In last night's edition of THE TRIBUNE appeared what was purported to be a report of the proceedings of the meeting of the Retail Drug Clerks' Association.

It is only due to the friends who are aiding us, and especially to our employers, the proprietors of the retail drug stores, to say that the whole report was wrong in every detail excepting the name of the hall.

We do not ever expect to close the stores at 6 p. m. and no member of the association ever had or ever expressed any such thought.

We have the sympathy of nearly all the proprietors in the county at present and those that have closed have done so because they considered it beneficial to both themselves and their clerks. We still hope to persuade the rest to close their stores at 9 p. m. and hope by our endeavors to make and keep the friendship of every proprietor in Alameda county.

E. W. HANSON,
President of the Retail Drug Clerks' Association of Alameda County.

TRIAL IS DEFERRED.

CHICAGO, Jan. 21.—The trial of the Northern Illinois Soft Coal Association corporations, which was scheduled to begin tomorrow, has been deferred for one day, because of the inability of both sides to prepare their cases in so short a time. Action against the indicted men is also said to be likely in La Salle county.

Mr. Deneen has given the Indiana operators until tonight to appear. Should they show a dilatory spirit extradiction papers will be secured and warrants for the operators will follow.

BRITT WILL NOT FIGHT.

SAN FRANCISCO, Jan. 21.—Jimmy Britt, the light-weight pugilist, has not been matched to fight Kid Parker before the Reliance Club as announced yesterday. Britt's manager declines to make the match because of his belief that Parker's health is not of the best.

The Old Almanac.

Almanacs were in use long before the art of printing was discovered, but since the advent of the movable types and the printing press, their number and varieties have become legion. Millions upon millions of them are printed annually, and most of them for free distribution. Each year they are made more attractive and polished in greater numbers. The calendar, an innovation of recent years, was popular for a time, but it could not supplant that old friend of earlier day—the Almanac—with its astronomical calculation and its more or less accurate weather predictions.

While the almanac of today is issued primarily for advertising purposes, they must of necessity contain interesting matter and be made attractive in every way possible, else they would not be read, and the money invested would be money wasted. Charles H. Fletcher's New York Almanac has ever been one of the foremost in attractiveness, and the 1903 edition is no exception. It has a handsome, lithographed cover that almost says: "Take me home with you." It contains the usual number of jokes, much valuable information relative to the care of infants, a record page in blank for baby's early days, and problems that will help to pass away many a long evening. Here is one. A child asked her father how old he was and the father replied, "I am just six times as old as you are, but in twenty-four years you will be one-half as old as I." What were their ages?

We understand that this Almanac may be had for the asking, either at drug stores or direct from Charles H. Fletcher, New York City.

BIG BUILDING ON THE BACON LAND.

Modern Structure Will be Erected on Washington Street Property.

A beautiful and unique brick business block is to be erected on Washington street by the Bacon Estate Company.

It will cover the block bounded by Washington, Eleventh and Twelfth streets, including the site of the building recently burned. The tenants in the Eleventh street market have already been notified to move out.

The new building will be a fire-proof structure, three stories high, 300x200 feet in size. It will be modern in every respect.

Walter J. Mathews, the architect who drew the plans, has adopted an original idea for making every part of the structure light and airy.

An arcade with a glass roof will run clear through the center of the building, from Eleventh to Twelfth streets.

This will allow show windows on each side of the thoroughfare thus provided under glass.

The roof of this arcade will only reach to the first story which will leave a clear division between the walls above.

In this way light and ventilation will be supplied the upper stories.

In the center of the arcade will be a circular court, also under a glass roof, which will permit the easy passage of the streams of promenaders coming in opposite directions.

Although the building to be erected at once, will only be three stories in height, the foundations and walls and steel framework will be capable of supporting three additional stories. There will be fire-proof partitions between each store.

The middle stores will have double frontages while the corner stores will have three frontages each.

There will be 200 feet of store frontages on each of the three streets. In walking through the arcade it will be a continuous show window, as every middle store will have windows at the front and rear.

Work will begin as soon as the tenants vacate, which will be in about six months.

Fred Sinclair will retain his store on Eleventh street, as he is in the Murphy building.

MADE RAID ON A COAL TRAIN.

NEW YORK, Jan. 21.—A crowd of men, women and children today attacked and captured a train of seven cars loaded with more than 200 tons of anthracite coal on the Long Island Railroad, in Brooklyn.

Many of those who took the coal say they are willing to pay for it and that it was only after efforts to buy had resulted in failure that they decided to raid a train.

B. F. HUDDLESON PASSES AWAY

Rev. B. F. Huddleson, who for nearly four years was the pastor of the Baptist Church here, has been in Pasadena for the benefit of his health since last November. He wired his wife in Reno that he would be home on Saturday night's flyer. Mrs. Huddleson went to the train to meet him and on its arrival boarded the sleeper. As she entered Mr. Huddleson was walking towards her, when suddenly he fell to the floor and died. She raised his head to her lap, but met his stony gaze, for the Grim Monster had claimed him.

Mr. Huddleson was a man imbued with the best principles and in his death the coast loses an ardent defender of the right.

He was pastor of the Baptist Church for nearly four years and resigned one year ago last September on account of failing health. Last November he, with his daughter, went to Pasadena in the hope that the climate of Southern California would prove of benefit to him. He was a sufferer with tuberculosis, but has never been confined to his bed. His daughter says he sat up nearly all the way from Pasadena to Reno, read the papers and seemed to be unusually cheerful. He evidently accomplished what he set out to accomplish when he took the train for home, to see his wife before death took him away.

Mr. Huddleson was a native of the San Joaquin Valley, California, and forty-five years of age on December 30th. He leaves a wife and three daughters and one son in Reno, and a mother, father and several brothers and sisters near Modesto. His funeral will most likely take place from the Baptist Church tomorrow if his people can get here in time.—Reno Gazette, January 19.

(Mr. Huddleson formerly lived at Golden Gate and was president of the State A. P. A's. at one time.)

THEY TALKED OF PLAGUE.

SACRAMENTO, Jan. 21.—The Bubonic Plague Committee of San Francisco had a conference with Governor Pardee this afternoon, presumably as to what course the Governor is to take or what course he wishes the officials of San Francisco to follow regarding the existence of the plague in this State.

Neither the Governor nor any member of the Committee would divulge what action, if any, was decided upon.

The Committee arrived and departed on a special train and comprised Mayor Schmitz, Attorney W. F. Herrin, Fremont Older of the Bulletin; T. T. Williams of the Examiner, W. J. Martin of the Call and Henry T. Scott.

POLICE DIRECTED TO ENFORCE LAW

LYNN, Mass., Jan. 21.—Prompted by the disturbances created last night, when striking shoe cutters and their sympathizers attacked the cutters who took their places, Mayor Eastham today issued a proclamation calling on the police to enforce to the letter the city ordinances against loitering in the streets and urging all citizens to refrain from congregating in the shoe factory district or making any demonstration in connection with the strike. The police on escort duty tonight will be mounted. Order prevailed this morning and the union shoe cutters continue the work of placing new men in factories from which the Knights of Labor cutters struck last week.

At the conclusion of the roll call on the resolution, a number of members who had absented themselves from the Assembly came into the chamber. It was at this juncture that the chairman

WILL LAUNCH THE CAZADERO

Great interest is being taken in the launching of the new ferryboat Cazadero at Dickie's shipyard next Saturday morning. This steamer is being built by the Risdon Iron Works for the North Shore Railroad Company, and is intended to be the fastest ferryboat on the bay.

Miss Frances M. Martin, the prepossessing daughter of John Martin, president of the railroad company will christen the steamer. But owing to the fact that high tide on Saturday is at the unseemly hour of 9:10 a. m., the launching will not be a social function, and will be attended, probably, by the officers of the company and a few members of their immediate families.

Shipping men generally will watch the first speed tests of the Cazadero, built to make easily fourteen knots and carry passengers between Sausalito to San Francisco in twenty-two minutes in any weather not foggy. Her boilers and engines are to develop more than 2000 horse power.

ILLEGAL TO WAGER ON STOCK MARKET

SAN FRANCISCO, Jan. 21.—Judge M. C. Sloss of the Superior Court today rendered a decision, holding that it is illegal to wager or gamble on the stock or grain markets, or, as it is technically called on the street, to "deal in margins." His decision is of considerable importance, being the first of its kind in this State, and affecting the business of practically all the brokers in the city.

The action in which Judge Sloss was called upon to reach this determination was begun about a year ago by C. W. Reals to collect a note of $10,000 executed by Jacob Stencel for the payment of a balance owed Bolton, De Ruyter & Company on transactions in the grain and stock market of 1899 and 1900.

Bolton, De Ruyter & Company are brokers in this city. In April, 1899, Stencel commenced doing business with them and continued to do such business until February 28, 1900, when the note for $10,000 was given.

WALKER DOES NOT LIKE THE SMELL.

OBJECTS TO THE WAY THE SOUTHERN PACIFIC KEEPS SAN FRANCISCO DEPOT.

"If any of you gentlemen have been to San Francisco recently and have used your sense of smell you could not help having noticed the foul odors that arise in the ferry depot," said Mr. Wilbur Walker before the Merchants' Exchange last night.

Continuing he said, "The place is unsightly, damp and a poor advertisement to either San Francisco or Oakland. Refuse from the shipping is allowed to lay around and decay and not even a hose is turned on the soiled floors.

"People who are traveling notice this more than we at home do because we are used to such a condition. This depot is supposed to be for passengers and I cannot understand how all this refuse, which is apparently freight matter, is allowed to pass through the place.

"One of Oakland's greatest features is its accessibility to San Francisco and I think we should use every means to make the trip over as pleasant as possible."

Mr. Walker closed his talk with a motion to have a committee of three appointed to investigate the situation and report at the next meeting.

President Theodore Gier appointed on the committee Secretary Walker, A. Jonas and Fred Sinclair.

Last night's session of the Merchants' Exchange was brief. A report on the tunnel was submitted by Mr. Jonas who stated that the work was progressing rapidly and that two shifts of men were at work. On this side, he stated, they had ties laid to the approach of the tunnel while on the other side the excavation had extended about 125 feet.

A communication was read from Assemblyman Goodrich saying that he had interested himself in the bills which the Exchange was anxious to have passed and would give every possible assistance. These bills are to extend the statute of limitations two years on all accounts, one for pure food, and one to make the property of the wife subject to debts incurred by the husband for necessaries of life when husband and wife are residing together. Mr. Goodrich says he expects to see all of the bills passed.

A letter was read from A. L. Irwin of Atlantic City, New Jersey, asking for more information on Oakland and vicinity. Secretary Walker stated that he had sent the only thing he had in the line of literature, "Facts and Figures," but that it was so far out of date that it quite failed to cover the situation. He asked the Exchange to devise some means for better advertising. The matter will be brought up again and it is hoped that some of the members will then have a plan for raising the necessary money.

MANY NEW LAWS ARE SUGGESTED.

Unio: Men Wanf an Amendment--Confirmation Committee not Ready to Report—Bills Concering Alameda County.

SACRAMENTO, Jan. 21.—Private Secretary Nye discovered a strange mixture of names in the matter of the appointment of several officials of public institutions in this State made by ex-Governor Gage. These appointees will come up for confirmation by the Senate. The question of the legality of the positions which these people now hold may be raised in the event of their confirmation by the body in question, because they are not the ones for which they were designated by Mr. Gage.

In one of his latest messages to the Legislature ex-Governor Gage appointed John F. Collins, a brother of D. Edward Collins of Oakland, as a trustee of the Normal School at Chico, but Mr. Collins is now serving at Los Angeles. In the same way, Dr. H. C. Brown, who was appointed to serve at the Chico school, is acting instead at the San Jose Normal School. Frank H. Marston, who was appointed to the Chico School, is also doing duty at San Jose. A settlement of the difficulty has not yet been suggested.

GRAND JURY EXPERT.

Under a Senate bill introduced today, each grand jury expert, in order to serve, must produce a certificate of competency from the State Board of Accountancy. The act also provides that when a grand jury, in its report, comments upon a private or public individual who has not been indicted, the comment is not to be considered a privileged communication.

LESSON OF THE PROGRESO.

The horrible fatality which attended the explosion of the steamer Progreso in San Francisco harbor a couple of months ago has led Senator Ralston to introduce a bill regulating the testing degree of fuel and illuminating oils. All oils must be given their correct names. To practice deception is a violation of the law. The name of the oil must be plainly visible on each can or package. No kerosene oil shall be sold which does not stand a fire test of 120 degrees. No fuel oil shall be used in boilers which does not stand a flash test of 150 degrees.

SHASTA BALLOTS DEFACED.

After all, it would not be surprising if the special committee of the Senate on contested elections, in the case of Hubbard vs. Coggins, should be obliged to open the ballots in the premises. The committee had decided that they would not go behind the returns if the contest depended on the throwing out of "no nomination" ballots. They reserved, however, the right to open the ballots in the event that this should be required for the purpose of proving or disproving fraud or other serious charges.

This afternoon, when the committee assembled to hear the evidence, the members were astounded to listen to the charge that the ballots had been defaced with pen and pencil marks all over them, and that they would have to be opened up to have this fact made apparent.

Then arose the question as to whether or not the committee had the legal authority to open the returns. Senator Curtin, a member of the committee, doubted the possession of the power. Chairman Ralston was uncertain, and an adjournment was taken until tomorrow at 2 o'clock to determine the case.

Hubbard was present unattended, but was told it would be better for him to have an attorney on hand tomorrow.

THREE MORE CONTESTS.

The House Committee on Contested Elections met this evening and received the evidence in the three cases which they will have to inquire into. They have not yet decided as to whether or not they will go behind the returns. In two of these contests there will be a lively fight, because witnesses of a strongly partisan shade of feeling will be on hand in favor of either side. The first of these will be that in the Thirty-eighth district of F. H. Seavey, Democrat and Union Labor man, against Marcus Lewis, a Republican. Seavey's vote was 1481 and Lewis' 1769. The next is that of H. S. Wanzer, Republican, against A. D. Duffey, Democrat. Wanzer polled 1907 votes and Duffey 1912 votes. These contestants are residents of the Fifty-fourth Assembly district. The third fight is in the Twenty-ninth Assembly district between Charles R. Franklin, Republican, and J. M. Murphy, Union Labor nominee. Murphy polled 994 votes and Franklin 941 votes. In the Seavey-Lewis case, Lewis, the contestant, says that he did not attend the taking of testimony in his case, but that he understands his opponent will try to prove that money was used to bring about his (Lewis) election, and also that people had solicited votes for him within the prescribed limit. Lewis declares he will win.

NO CONFIRMATIONS YET.

"When will the Committee on Execution Communications meet?" queried Senator Leavitt, repeating the question of THE TRIBUNE correspondent. "I can't tell you yet," he continued. "We are not quite ready yet. Why, I could not tell you without violating confidence. We have some ruffles yet to be straightened out and when we shall have straightened these out, we will be ready to meet."

The confirmation of Gage's appointee depends on the meeting of this committee.

SENATE STANDS FOR ROOSEVELT.

The Senate, in voting down the resolution instructing the California delegation in Congress to vote in favor of the passage of the omnibus State law bill for the admission to statehood of the Territories of Oklahoma, New Mexico and Arizona, gave proof of its purpose to stand by President Roosevelt, who, for reasons, and valid reasons, too, up to the present time, has not been in favor of that measure. The resolution was fathered by Senator Sanford, a Democrat. The Republicans caucused on the resolution, all the members of the party in the upper House attending save Senators Tyrrell of Nevada and Shortridge of Santa Clara.

Sanford made a speech in favor of the project as did also Shortridge and Tyrrell of Nevada. On the other side, the speeches were confined to Senators Rowell, Kahn and Curtin.

The resolution was lost by a vote of 26 to 7, Senators Shortridge and Tyrrell of Nevada, voting with the five Democrats of the Senate. Senators Wolfe and Savage were excused from voting.

BLANK OF PERKINS' ELECTION.

Senator Knowland received from Senator Perkins in Washington the official blank which has been prepared especially for conveying to the Senate at Washington the official announcement of the election of Senator Perkins to succeed himself. In appearance, the blank is of the simplest character, and is still further deprived of dignity by a full paragraph of instructions as to how the blanks are to be filled out. Senator Knowland delivered the instrument to Governor Pardee, who will be required to certify to the fact of the Senator's successorship.

MATTOS ON SCHOOL DISTRICTS.

The bill introduced by Assemblyman Mattos of Centerville regarding school districts is one for which there has been a demand for some time. Occasionally, residents in school districts are obliged, for one reason or another, to change the name of the school districts in which they reside and have been hampered and uncertain in their acts because there is now and for some time past, there has been no law bearing on the subject. The bill of Mr. Mattos covers the point and was framed after conference with District Attorney Allen of Oakland. The change in name is to be made by the Board of Supervisors. This, however, can not be done without a hearing on the subject on the part of the residents in the district. This hearing is to be granted after the filing of a petition of those desiring the change. When the Supervisors have fixed a date for the hearing of the petition, they must notify the school trustees of the district by means of a registered letter through the mails.

HELP POOR MEN ON TRIALS.

Assemblyman McMartin of San Francisco has introduced a measure which will be appreciated by poor men who have the misfortune to be compelled to go to law. The bill provides that the per diem of jurors, grand and petty shall be $2 and that no party to a suit will be required to advance jury fees before each day's hearing of a case in which he may be a party. It is provided, however, that the fees of the jurors may be taxed to the losing party in the judgment.

REGIMENTAL BANDS.

Assemblyman Foster of Oakland has introduced a bill which is intended to set at rest a long-fought battle, in which trades unionism was on one side and the Fifth Regiment Band, N. G. C., on the other. There is a rule of the Musicians' Union that a band of the National Guard cannot be admitted to membership in the Musicians' Union. For years, the Fifth Regiment Band of Oakland sought admission but were refused on one pretext or another, mainly that of ineligibility. At length, the band wearied of its efforts to acquire membership, more especially because it was tabooed by labor organizations entirely when they wanted to hire a musical organization to march in procession or to figure in a ball. Accordingly, the members of the band retired from the National Guard and were received as members in the Musicians' Union in San Francisco. This act will enable the organization to be known as it has been known in the past.

THREATENING UNIONISTS.

Another of the many bills in the interest of union labor was that introduced today by Assemblyman Murphy of San Francisco. This measure strives to make it an offense for any employer to threaten to discharge an employe or employes who make up their minds to become members of a labor organization.

DEAF, DUMB AND BLIND HOSPITAL.

The bill for the relief of the Durham Trust fund at the Deaf, Dumb and Blind Asylum at Berkeley was introduced into the House by Assemblyman Bliss. It is a counterpart of the bill on the same subject in the Senate. It provides for the reimbursing of the fund referred to in the sum of $15,000. This sum was withdrawn from the trust something more than a year ago for the purpose of erecting a smallpox hospital at a time when the disease was rioting in the institute.

STRENGTH OF LABOR.

The representatives of union labor were never so numerous at a Legislature in this State as they are at the present time. The same is true with regard to bills in the interest of labor and people who subsist by labor. The latest accession to the list of the labor advocates is P. B. Preble, of Oakland, secretary of the Federated Trades' Council of Alameda county and a member of the Duert Legislation Committee of the State Federation of Labor. Mr. Preble comes to work in a special manner in behalf of the constitutional amendment relating to the initiative and referendum, which has already been introduced. Mr. Wilser, another labor man, will also aid in this work, but he will have special interest in the furtherance of the bills fostered by the San Francisco Council, of which he is a representative.

Mr. Preble says that the success of the proposed amendment is assured in both Houses. He quotes from a letter of Dr. J. R. Haynes, president of the Duert Legislative League, to the effect that, as the result of a canvass which was made regarding the feeling of members and prospective members of both Houses, the feeling regarding the amendment is as follows: For the amendment in the House: thirty-nine Republicans, twenty Democrats and Union Labor; twenty-one unknown. For the amendment in the Senate, eleven Republicans; inclined to favor it, eighteen; unknown, twenty-two. Mr. Preble also states that some time ago he was in receipt of a letter from Governor Pardee to the effect that he was appreciative of the progressive method for advancement which was being made in the cause of labor.

VISITING INSTITUTIONS.

There has been a great deal said about junketing in this Legislature, as there has been in every general Assembly that has ever been held here. Few members, however, feel that the State will fail after the cost of visiting her State institutions shall have been liquidated. The House today started to discuss the first of the Brown resolutions, requiring the permission of two-thirds of the House before a committee may visit a State institution, with a number of other provisions. There was another Brown resolution which designated the number of members of this, that and the other committee should go on the tour of inspection and which prescribed, among other things, that members were to be paid actual expenses. The latter measure was laid on the table by a vote of forty-three to thirty. Several speeches were made and among them was that of Assemblyman Walsh of Oakland, who spoke in part as follows: "It is high time for the members of this body to stop the petty larceny practice of its members reimbursing themselves for campaign expenses by means of mileages secured in junketing trips and committees. This Assembly has been generous and liberal in the appointment of employes and a great deal of money has been spent in that way. There is now need of retrenchment. Governor Pardee has strongly intimated that he is in favor of an economical government. The idea is a practical one—one which commends it to the people, and in the furtherance of it, the Governor should be encouraged and upheld."

The first resolution which was brought up was then referred to the caucus of the House, which took place immediately and resulted in the amendment of the measure, the principal features of which are that no attaches go on the visiting trip; there are to be no substitutes save by consent of the House and mileage has not been prohibited.

A resolution authorizing certain Senators to visit certain southern institutions was adopted in the Senate, but it contained a clause relating to actual expense.

LYNCH IS ON TRIAL FOR LIFE.

He is Arraigned for Trial on a Charge of Treason.

LONDON, Jan. 21.—The trial of Colonel Arthur Lynch, member of Parliament from Galway, on the charge of treason by aiding and abetting the King's and the late Queen's enemies during the war in South Africa, according to one unique sentence of the arraignment, "being moved and seduced thereto by the instigation of the devil," commenced today before the Lord Chief Justice, Lord Albeston and two other Justices.

The prisoner pleaded not guilty.

This is the first treason trial in England for upwards of sixty years.

The last was that of a youth who fired a pistol at the late Queen Victoria as she was riding down Constitution Hill.

The youth, Francis, was condemned to death, but the sentence was commuted to imprisonment for life. He was released in 1867. Unusual interest, therefore, is taken in the present case. The court room was crowded, many ladies, including Mrs. Lynch, being among those present.

Colonel Lynch was pale and careworn, but he stood in the dock composedly listening to the lengthy indictment, which occupied nearly an hour in reading.

Drawing, quartering and beheading accompanied the death penalty for treason until 1867, when this was abolished.

The death penalty, however, remains.

The Attorney General, Sir Robert Finlay, opened the case, reciting the alleged treasonable acts as fully reported at the preliminary hearing.

BARK AGROUND AND BREAKING TO PIECES

ATLANTIC CITY, N. J., Dec. 21.—The bark Abiel Abbott, salt laden, from Turk's Island for New York, went aground near Ship Bottom Light last night and is fast going to pieces.

Five of her crew of nine men were picked up today by life savers, but it is believed the other four were killed by falling wreckage. When the bark struck, the strain caused one of her masts to fall, and it is thought four of her crew were either killed by the wreckage or stunned and fell overboard and were drowned. The rescued men were in a dying condition when taken from the wreckage.

COLUMBIA, S. C., Jan. 21.—Hon. Duncan Clinch Heywood (Dem.) was inaugurated Governor of South Caroline at noon today. At the same hour, James T. Sloan was sworn in as Lieutenant-Governor to succeed James H. Tillman. The inaugural ceremonies were brief and simple.

The quiet which prevailed throughout the day was noticeable, following, as it did, the anxiety and suppressed excitement of the past few days.

HAVRE, Jan. 21.—The French line steamer La Touraine, which arrived at Havre December 25 from New York, is on fire. It is hoped that the bulk of her cargo will be saved.

The fire, which broke out at 12:30, raged with great fierceness, destroying the saloons and deck cabins, and spread to the hold before it was gotten under control.

IN HONOR OF PLATT.

NEW YORK, Jan. 21.—Mayor Low will have to decide whether 100 guns are to be fired in City Hall Park in honor of the re-election to the United States Senate of Thomas C. Platt. The arrangements for the blank-shell bombardment in City Hall Park have been made at a meeting of the Board of Aldermen. Alderman Sembrich, at the request of Postmaster Vancott, introduced a resolution to fire the salute. The resolution was adopted, and if Mayor Low does not interfere, the guns will boom.

Taylor, for many years mail agent for Irish Lane and Shickshinny, was carried along his route by his horses yesterday. He died soon after being found. He was stricken with palsy at Shickshinny and refused, despite the severe cold weather, to delay his mail delivery, and, half, conscious, started over the mountains.

EXPLOSION IS A MYSTERY.

TWO FISSURES IN THE EARTH IS ALL THE EVIDENCE FOUND.

WHITTAN, Miss., Jan. 21.—Two fissures in the earth about three feet deep and a few inches wide and running for a distance of a quarter of a mile, are the only evidences of a mysterious explosion which shook this town just before daybreak today.

Houses were shaken violently and crockery was broken in several instances.

A number of persons, aroused by the explosion, began searching for the cause at daylight.

In a meadow they found a crack in the earth's crust about three feet in depth and two or three inches wide.

They followed it for three-quarters of a mile before they reached the end.

Later they discovered another fissure of the same description about 75 feet away from the first and parallel with it.

An explanation of the explosion is lacking.

REFUSED TO PRESENT HIS RESIGNATION

DENVER, Colo., Jan. 21.—D. B. Fairley, chairman of the Republican State Central Committee, whose resignation was demanded at a meeting of the committee on Monday, has refused to comply with this demand and is still conducting the business of the committee at the Republican State headquarters. He takes the stand that he was not lawfully deposed, but that the Federal officers violated their oaths of office by coming to Denver and voting him out of office with the proxies furnished them.

The Provisional Committee appointed at the meeting of the State Central Committee on Monday to assume the power and work of the chairman, is conducting business at the headquarters of Edward O. Wolcott, the leading Republican Senatorial candidate.

The postponement was agreeable to counsel on both sides.
